3. Box Contents

4. Part Names and Functions

5. Operation

5.1 Charging

Please fully charge the EP410 before first use or if left unused for a long period of time.

Please use the USB-C charging cable provided to charge the headset. Open the rubber socket protector and plug the charging cable to the charging socket. The LED is constantly on red while charging.

When the headphones are fully charged, the LED indicator will turn off.

Note: Please **DO NOT** use the headphones when charging.

5.2 Power On/ Off

Please press and hold the Power button for 3 seconds to turn the headphone on. The LED light flashes 3 times in blue.

Please press and hold the Power button for 5 seconds to turn the headphones off. The LED light flashes 3 times in red.

5.3 Bluetooth Connection

For the first time use, the headset will enter the Bluetooth pairing status after being powered on properly and LED indicator will flash red and blue. To pair the headset, please select the EP410 IN Bluetooth settings on mobile device's and click on it to connect.

The LED indicator will flash blue after Bluetooth is connected and will turn off.

To connect a new mobile device, disconnect the EP410 or disable Bluetooth in the Bluetooth settings of the current device, then select the EP410 on the new device.

5.4 Multipoint

The EP410 supports Bluetooth multipoint function allowing automatic switching between two mobile devices after successful pairing.

To connect dual devices at the same time:

- Please select EP410 in the system settings on one mobile device to connect, then disable the Bluetooth function on the mobile device.
- Once disconnected, select EP410 in the system settings of another mobile device to connect.
- Restart the EP410 and leave the Bluetooth function on for both paired mobile devices, the EP410 will automatically connect to both devices.

9. Warranty

This product is guaranteed for twelve months from the date of the original purchase. In the unlikely event of any defect arising due to faulty materials or workmanship, the unit will be either replaced or repaired free of charge (where possible) during this period. An alternative product will be offered in case the product is no longer available or repairable.

This warranty is subject to the following conditions:

- The warranty is only valid within the country where the product is purchased.
- The product must be correctly installed and operated in accordance to the instructions given in this user manual.
- The product must be used solely for domestic purposes.
- The warranty only covers the main unit, and does not cover the accessories.
- The warranty does not cover the damage caused by misuse, negligence, accident and natural disaster.
- The warranty will be rendered invalid if the product is resold or has been damaged by inexpert repairs. The manufacturers disclaim any liability for incidental or consequential damages.
- Please consult our customer adviser before returning any product; we are not responsible for any unexpected product returns.
- Any faulty product must be kept and returned in the original packaging with all the accessories and the original copy of the purchase receipt.

The warranty is in addition to, and does not diminish, your statutory or legal rights.

Industry Canada Statement

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept interference, including interference that may cause undesired operation of the device.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

No Unauthorized Modifications: Do not make any changes or modifications to this product without the prior express written approval of August International Ltd. Any changes or modifications made without express written approval could void the user's authority to operate this product.
