

X-2580

PROFESSIONAL 4-STAGE HEPA AIR SCRUBBER

Small in size, but not compromising on airflow, the new XPOWER X-2580 commercial grade air scrubber features a 1/2 HP motor which generates up to 550 CFM. This unit's FOUR STAGES OF FILTRATION include a carbon filter for effective odor control. The two outermost nylon mesh filters capture 90% of medium to large contaminants and can easily be removed and hand washed. The 3rd stage activated carbon filter effectively absorbs and neutralizes a wide range of odors and other pollutants. The final stage HEPA filter removes 99.97% of 0.3-micron sized particulates as well as other airborne particles, and sub-micron sized dust. A convenient indicator light notifies you when the filters need to be cleaned or replaced.

- Stackable and lightweight for easy transport and storage
- 4-stage filtration system including activated carbon & HEPA filters
- Dual Thermal protection
- 5 speed control switch gives you the flexibility to run the unit on a quiet low speed in noise sensitive environments

SPECIFICATIONS

MODEL NO.	X-2580
VOLTS/HERTZ	115V / 60Hz
MOTOR	1/2 HP
MAX AMP	2.8 A
RATED AIRFLOW	550 CFM
SPEEDS	5 Speed
CORD LENGTH	13 ft.
STACKABLE	Yes
UNIT WEIGHT	23.6 Lbs.
UNIT DIMENSIONS (LXWXH)	16.6" x 10.4" x 18.9"
HOUSING	ABS
DUCT SIZE (AIR OUTLET DIMENSIONS)	No
DUAL THERMAL PROTECTION	Yes
PALLET QUANTITY	32

4 STAGE FILTRATION SYSTEM

	WASHABLE OUTER NYLON MESH FILTER	NFR9 (9 in.)
	WASHABLE NYLON MESH FILTER	NFS13 (13 x 13 in.)
	ACTIVE CARBON FILTER	CF-15 (13 x 13 in.)
	HEPA FILTER	HEPA35-33 (13 x 13 in.)
FILTER CHANGE LIGHT		Indicates when filter needs to be cleaned or changed.
