MOUNTING OPTIONS

Your new shade is custom made to your specifications from the finest fabrics available. The installation should be easy and your shade will look elegant.

Mounting NOTES:

Mounting screws provided are suitable for most mounting surfaces. See below for additional suggestions.

- **For wallboard or plaster:**

Use hollow wall anchors for added support. (not included)

- **For concrete, stone, brick or tile:**

Use an appropriate drill and appropriate anchors before fastening the screws. (not included)

- **For metal surfaces:**

Pre-drill holes and use appropriate drill and appropriate anchors before fastening the screws. (not included)

INSIDE MOUNT: Top of bracket

OUTSIDE MOUNT: Back of bracket

Inside Mount Depth Requirements			
Bracket	Minimum Depth	Fully Recessed* 1-1/2" Depth Headrail	Fully Recessed* 2-1/2" Depth Headrail
Standard	1-1/8"	2-1/2"	2-1/2"
Celing	1-1/8"	2-1/2"	2-1/2"
Extension	1-7/8"	1-1/8"	3-1/2"

Outside Mount Surface Space Requirements	
Bracket	Minimum Depth
Standard	1-1/8"
Celing	1-1/8"
Extension	1-1/4"

1 MOUNTING BRACKETS | Illustration

Installing Brackets:

Inside mount: Mount brackets a minimum of 1" - 2" away from the edges of the product depending on the overall width of the shade.

- Attach the brackets to the shade, placing the screw bolt through each route. Hold the shade up and mark the bracket or drill hole positions.
- Align brackets to the marked positions and secure through two holes, ensuring that the bracket tops are aligned and level to one another.

To ensure proper shade operation, mount the brackets level.

Spacer blocks (optional) will be attached to the end of each bracket. Ensure screws are long enough to secure brackets with spacer blocks. Do not use more than three spacer blocks per bracket. If installing extension brackets, do not use spacer blocks.

Inside Mount

Inside Mount

Outside Mount: Outside edge of the brackets should be positioned at a minimum of 2" from the outside of the headrail cassette, note the sticker on the headrail cassette. Use wall anchors for a secure hold. Mark the position of the bracket as illustrated.

2 INSTALLING THE SHADE | Illustration

2. Slide the headrail into the brackets.

3. Place the wing nut on the post of each bracket and tighten by hand.

CARE AND CLEANING

The soft, delicate feel of woven fabric with the durability of wood materials. It is made from a sturdy, woven fabric and wood slats which can be feather dusted or vacuumed on a low setting. Spots or stains can be lightly rubbed clean with a damp sponge and mild soap. To avoid discoloration of the material, we recommend against the use of chemical cleaners. The woven fabric may also be ultrasonically cleaned.

Remove The Shade

- Fully raise the shade.
- While holding the headrail, remove each wing nut from all screws on the brackets.
- If required, pull the micropleat opacity liner free from the mounting clips by releasing the latch.

Cleaning Procedures

For most fabrics, the following options are available if your shade needs cleaning.

Dust Removal

In most cases, just use a feather duster to gently dust off regularly.

Vacuuming

Use a low-suction hand-held vacuum cleaner to remove dust more thoroughly.

Hair Dryer

Use a hair dryer to turn on the cold air to blow away the dirt and debris between the blades.

Spot Cleaning

- Prepare a solution of warm water and a mild detergent.
- Dampen a clean cloth in the solution and wring out.
- Dab the spot with the dampened cloth until it is gone. Do not rub the fabric.
- Allow the shade to dry in the completely lowered position.

NOTE:

The Warning labels on the bottom-rails of corded window coverings contain important safety information. These warning labels are designed to be permanent, in accordance with the industry's safety standards, and must not be removed.

WARNING

Young children can **STRANGLE** in cord and bead chain loops and in the loop(s) above the cord connector. They can also wrap cords around their necks and **STRANGLE**.

- Always keep cords and bead chains out of children's reach.
- Move cribs, playpens, and other furniture away from cords and bead chains. Children can climb furniture to get to cords.

CHOKING HAZARD:

- Keep cord out of reach from children.
- Remove objects below window.
- Do not tie cords together.
- Make sure safety cords are located 1-2 inches below the headrail.
- Please reference all warning tags in the instructions and on the shade.
- Please keep cords out of children and pets reach, a cord cleat or a cord tensioner device can be found at a local window covering store.

EMERGENCY / FIRST AID

- Remove cord from child's neck
- Call 911 or an emergency Call Center
- Clear the throat
- Check breathing and heartbeat
- Begin CPR if trained

THIS PRODUCT IS...

S H A D E S

This technical drawing illustrates the side profile of a window blind assembly. It shows a series of horizontal slats made of a light-colored material, possibly wood or composite, held together by a dark-colored frame. The top rail is visible, featuring a dark-colored end cap. A vertical component, likely a pulley or part of the lifting mechanism, is shown on the right side, connected to a cord or cable. The drawing is a perspective view, showing the depth of the slats and the frame.
