

Why choose ProChat?

Recording does not require the use of a mobile phone

Software and hardware inter-connection Quickly organize recording files

More AI features

Recording transcription, summary, analysis

Multilingual recordings to text

Multiple translation scenarios

Ultra-thin magnetic AI voice recorder

ECC Statement
This equipment has been tested and found to comply with the limits for Class B digital devices, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio communications, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
•Reorient or relocate the receiving antenna.
•Increase the separation between the equipment and receiver.
•Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
•Consult the dealer or an experienced radio/TV technician for help.
Caution: Any changes or modifications to this device not expressly approved by the manufacturer could void your warranty and may be illegal.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
RF Exposure Information: To meet general RF exposure requirements.
This device is not intended for use in portable exposure conditions, and must be used in accordance with the following instructions:
This equipment should be installed and operated with minimum distance 100 cm between the radiator & your body.
