 - Spacious bottom freezer with easy-slide internal drawers to separate storage
 - Door water dispenser and internal ice maker

DIMENSIONS

Height	1715 mm
Width	790 mm
Depth	695 mm

FEATURES & BENEFITS

- WATER ON TAP**
The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water and doesn't take up any storage space in your refrigerator.
- Humidity Control**
Your fruit and veges need different environments. The humidity control slides in each storage bin create a perfect microclimate for each, which helps keep them fresher for longer.
- Clever Energy**

- Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means it uses the energy it needs without compromising on food care.
- Design Quality**
Our refrigerators are designed and built using quality materials. We use real stainless steel on our refrigerators and solid glass for shelving.
- Easy cleaning**
No more permanent dirty marks with our EZKleen feature for stainless steel refrigerators. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.
- ICE MAKER**
Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space or during busy times, you can boost ice production by up to 30%.
- SPECIFICATIONS**
- | | |
|----------------------|-------|
| Capacity | |
| Total gross capacity | 519 L |
| Volume | 494 L |
| Volume freezer | 146 L |
| Volume refrigerator | 348 L |
- | | |
|---|------------------|
| Consumption | |
| Energy consumption | 496kWh/year |
| Energy rating | 2 ticks |
| In-use energy carbon emissions estimate | 190.1kgCO2e/year |

Features

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
