# How to find your lamp in the data table in the pages below

**1** Identify your lamp shape on the left bottom front of packaging:

**2** Find your Lamp description printed on your lamp

**800 LUMENS**  
2700K **LED10DA19/827**  
10W 110mA 120VAC 60Hz  
CHINA-A 20196TS

**3** Find the Package Desc and product code (PC) on back of the package

<b>1</b> Lamp shape	<b>2</b> Lamp description	<b>3</b> Package Desc	<b>3</b> PC

A15	LED4DA15C-GCSW9	LED4DA15C-GCSW9-2P	93116152

# What do the results in the data table mean?

1. We measure 2 things:
  - a. How low can the light dim compared to the maximum light output?
  - b. Can you see the lights flicker when they are dimmed?
2. What do the colors mean?

	Dimming Depth	Observable Flickering?
<b>Excellent</b>	10%	< 30% of people see flicker at lowest depth
<b>Good</b>	13%	< 50% of people see flicker at lowest depth
<b>Compatible</b> (industry standard)	20%	~ 50% of people see flicker at lowest depth
<b>Not suitable</b>	> 20%	> 50% of people see flickering near lowest depth

IMPORTANT NOTICE – Because dimming equipment, applications, and conditions of use are many, varied, and beyond our control, this information necessarily is based on limited sample sizes and testing, and Savant Technologies LLC does not represent or warrant the suitability of a lamp for any particular application or use in any particular equipment. This information may be updated and changed at any time without notice as new equipment and information is developed.
