Android Auto

When you connect an Android phone to the audio system via the USB port or wirelessly*, Android Auto is automatically initiated. When connected via Android Auto, you can use the audio/information screen to access the Phone, Google Maps (Navigation), Google Play Music, and Google Now functions. When you first use Android Auto, a tutorial will appear on the screen.
We recommend that you complete this tutorial while safely parked before using Android Auto.

2 **USB Ports** P. 251
2 **Auto Pairing Connection** P. 329

2Android Auto

To use Android Auto, you need to download the Android Auto app from Google Play to your smartphone.

Only Android 5.0 (Lollipop) or later versions are compatible with Android Auto.
Bluetooth A2DP cannot be used while your phone is connected to Android Auto.

Park in a safe place before connecting your Android phone to Android Auto and when launching any compatible apps.

To directly access the Android Auto phone function, press **Phone** on the home screen.
2 **Auto Pairing Connection** P. 329

When your Android phone is connected to Android Auto, it is not possible to use the *Bluetooth*® Audio. However, other previously paired phones can stream audio via *Bluetooth*® while Android Auto is connected.
2 **Phone Setup** P. 386

Apple CarPlay and Android Auto cannot run at the same time.

Features

* Not available on all models

■ Android Auto Menu

: Go back to the home screen

Android Auto icon

❶ **Maps (Navigation)**

Display Google Maps and use the navigation function just as you would with your Android phone. When the vehicle is in motion, it is not possible to make keyboard entries. Stop the vehicle in a safe location to undertake a search or provide other inputs.

Models with navigation system

Only one navigation system (pre-installed navigation or Android Auto) can give directions at a time. When you are using one system, directions to any prior destination set on the other system will be canceled, and the system you are currently using will direct you to your destination.

The audio/information screen shows you turn-by-turn driving directions to your destination.

❷ **Phone (Communication)**

Make and receive phone calls as well as listen to voicemail.

❸ **Google Now (Home screen)**

Display useful information organized by Android Auto into simple cards that appear just when they're needed.

>> Android Auto

For details on countries and regions where Android Auto is available, as well as information pertaining to function, refer to the Android Auto homepage.

Screens may differ depending on the version of the Android Auto app you are using.

Android Auto Operating Requirements & Limitations

Android Auto requires a compatible Android phone with an active cellular connection and data plan. Your carrier's rate plans will apply.

Changes in operating systems, hardware, software, and other technology integral to providing Android Auto functionality, as well as new or revised governmental regulations, may result in a decrease or cessation of Android Auto functionality and services. Honda cannot and does not provide any warranty or guarantee of future Android Auto performance or functionality.

It is possible to use 3rd party apps if they are compatible with Android Auto. Refer to the Android Auto homepage for information on compatible apps.

Features

④ **Music and audio**

Play Google Play Music and music apps that are compatible with Android Auto.

To switch between music apps, press this icon.

⑤ **Go back to the Home Screen.**

⑥ **Voice**

Operate Android Auto with your voice.

Features

■ Auto Pairing Connection

When you connect an Android phone to the unit via the USB port or wirelessly*, Android Auto is automatically initiated.

■ Connecting Android Auto Using the USB Cable to the USB Port

1. Connect the Android phone to the USB port using the USB cable.
   ↪ USB Ports P. 251

   ▶ The confirmation screen will be displayed.
