Name of accessories	Expansion pipe and screw	Screwdriver
Accessory picture		
5 feet of spare parts	8 sets	1PCS
8 feet of spare parts	12 sets	1PCS
10 feet of spare parts	16 sets	1PCS

Step 1: First, please check whether the model meets your needs; second, please check whether the quantity of material is correct:

- (1) 5-foot product with one pipe armrest, two tee bases, two short pipe connections, two pipe caps, and one package (As shown in the table above) .
- (2) the 8-foot size product includes 2 pipe armrests, 3 tee bases, 2 short pipe connections, 2 pipe caps, and 1 package (As shown in the table above).
- (3) the 10-foot product includes 3 face pipe armrests, 4 tee bases, 2 short pipe connections, 2 round pipe caps, and 1 package (As shown in the table above) .

Step 2: As shown in the picture, connect the long face pipe, the tee base, the short pipe and the round pipe cap in turn.

Step 3:After determining the pre-installation position, use a marker pen to make a hole mark at the corresponding installation hole position.

Step 4: As shown in the drawing, punch the hole in the underlined position and insert the expansion tube.

Step5: Tighten the screws separately with a screwdriver
