

Bezzera B2016 Buying Guide

Bezzera B2016 1-Group - Compact Powerhouse

Best for:

- Small coffee bars
- Boutique cafés
- Mobile coffee carts
- Offices and co-working spaces

Why Choose It:

- Small footprint, ideal for limited counter space
- Perfect for producing up to 100 cups/day
- Same robust features as the larger models
- Lower power consumption and easier to install

Ideal If: You're just starting out, operate a small or specialty setup, or want a powerful single-group machine with professional-grade performance.

Bezzera B2016 2-Group - The Café Standard

Best for:

- Busy cafés and bistros
- Restaurants and hotels
- Coffee trucks and high-footfall venues

Why Choose It:

- Balances size and output - fits most commercial counters
- Handles up to 300 drinks/day with ease
- Can be operated by 1 or 2 baristas at once
- Great value for businesses scaling up

Ideal If: You need to serve a consistent flow of customers during rush hours but don't want to sacrifice space

or overpay for unused capacity.

Bezzera B2016 3-Group - Built for Speed & Volume

Best for:

- High-volume cafés
- Coffee chains and franchises
- Restaurants with heavy espresso traffic
- Multi-barista environments

Why Choose It:

- Supports three simultaneous extractions
- Produces over 400+ drinks/day
- Perfect for fast-paced service
- Highest boiler capacity for continuous brewing & steaming

Ideal If: You have multiple staff on the bar, large queues at peak hours, or operate in a fast-service environment like a busy city café or airport kiosk.

Feature Summary (All Models Include)

- Heat exchange system for simultaneous brewing/steaming
- Programmable electronic dosing (DE models)
- Copper boiler with thermal stability
- Tall cup clearance (up to 13cm)
- Polished stainless steel body
- Durable for all-day commercial use

Space and Power Requirements

Model | Dimensions (mm) | Boiler Size | Power (230V)
