Key Features

Pro:Idiom® Tuners

Available as optional accessories, Pro:Idiom Tuners are PPV technologies that protect first-run HD premium content from piracy for secure HD content protection for PPV networks as well as standalone properties. Additional fees may apply for standalone properties. See your Sony representative for details.

Installation and Management Services

Equipping your facility with Sony BRAVIA Pro displays couldn't be easier, or quicker. To ensure a smooth transition from standard definition to high-definition, Sony offers award-winning professional installation services and complete project management for your display installations.

Power-saving Features

As a world leader in professional video displays, Sony designs its products with energy consumption in mind. All BRAVIA Pro HDTVs feature Sony's exclusive LightSensor technology that adjusts power to the screen in response to room lighting, for power savings and consistently crisp, vibrant images. BRAVIA Pro HDTVs are Energy Star-compliant and use less than 1W in standby mode, with audio-only reduced power states and low power modes when on.

Full HD 1080p

Full HD 1080p is the pinnacle of the high-definition resolutions available today. It allows any high-definition content to be viewed without the need to downconvert images to the native resolution of the display. Your viewers see all the breathtaking details as they are meant to be seen.
