NEW ADDITIONS 2015

2015 Premier Collection New Additions

Cirrus™ Series

Add a fashionable touch to your bathroom décor with the Cirrus™ family of faucets. The clean, classically inspired silhouettes feature gently flared bases that create a uniquely stylish look. Delicately curled lever handles soften the contemporary edge of the design.

Every Cirrus™ faucet is manufactured using top-quality components, including a best-in-industry Kerox ceramic cartridge for reliable drip-free use and a high performance/low flow Neoperl aerator to reduce water waste without compromising pressure.

Three installation options are available: The basin model coordinates with all undermount and basin sinks; the widespread configuration is easy to customize, with an installation width of 6"-12"; the centerset model is ideal for remodeling or building a new bathroom. Personalize the look with a choice of finish: Chrome intensifies the modern edge; brushed nickel provides a softer transitional look; oil-rubbed bronze adds a hint of vintage flair.

Create a bathroom you love with the Cirrus™ series, and experience Kraus Quality with refined style.

KRAUS INTRODUCES NEW BATHROOM FAUCET FAMILY

Fashionable faucets for any décor

5/2015 • Port Washington, NY

Kraus is introducing the Cirrus™ family of faucets, for a new way to add a fashionable touch to your bathroom décor. The clean, classically inspired silhouettes feature gently flared bases that create a uniquely stylish look. Delicately curled lever handles soften the contemporary edge of the design. Each faucet is manufactured using top-quality components, including a best-in-industry Kerox ceramic cartridge for reliable drip-free use and a high performance/low flow Neoperl aerator to reduce water waste without compromising pressure. Three installation options are available, for a variety of applications. The basin model coordinates with all undermount and basin sinks; the widespread configuration is easy to customize, with an installation width of 6"-12" and a two-handle design for simple operation; the centerset model is ideal for remodeling or building a new bathroom. A choice of finish is available to personalize the look: Chrome intensifies the modern edge; brushed nickel provides a softer transitional look; oil-rubbed bronze adds a hint of vintage flair.

Create a bathroom you love with the Cirrus™ series, and experience Kraus Quality with refined style.

About Kraus USA: Headquartered in NY, with distribution facilities worldwide, Kraus USA has been operating for over 10 years with one simple mission: To bring the best to our customers, exceeding expectations when it comes to quality, style, and value. With Kraus, you get more for your money than just beautiful and durable kitchen & bath fixtures. You get a reliable, consumer-focused experience, from selection to installation, to care & maintenance, and beyond.

Coda™ Series

Outfit your bathroom in style with the Coda™ family of faucets. The sleek, versatile silhouettes feature playful design details and Art Deco-inspired tapered bases. Uniquely curved lever handles and gently arched spouts provide a stylish look as well as effortless temperature & flow control.

Every Coda™ faucet is created using top-quality components, including a best-in-industry Kerox ceramic cartridge for reliable drip-free use and a high performance/low flow Neoperl aerator to reduce water waste without compromising pressure.

For a variety of applications, four installation options are available to coordinate with any style of sink: vessel, basin, widespread, and centerset. A choice of finish is available to personalize the look: Chrome creates a bright, fresh appearance; brushed nickel softens the contemporary style with a transitional glow; oil-rubbed bronze provides a hint of vintage flair.

Refresh your bathroom décor with the Coda™ series, and experience Kraus Quality at its best.

KRAUS INTRODUCES NEW BATHROOM FAUCET FAMILY

Stylish faucets for your décor

5/2015 • Port Washington, NY

Outfit your bathroom in style with the new Coda™ series of faucets from Kraus. The sleek, versatile silhouettes feature playful design details and Art Deco-inspired tapered bases. Uniquely curved lever handles and gently arched spouts provide a stylish look as well as effortless temperature & flow control.

The Coda™ series is created using top-quality components, including a best-in-industry Kerox ceramic cartridge for reliable drip-free use. The best-rated Neoperl adjustable aerator ensures a splash-free stream without compromising water pressure, and provides the enhanced functionality of a pivoting tip for precise flow control. Four installation options are available, for a variety of applications: The vessel model can be paired with all semi-recessed and vessel sinks; the basin model coordinates with all undermount and basin sinks; the widespread configuration is easy to customize, with an installation width of 6"-12" and a two-handle design for simple operation; the centerset model is ideal for remodeling or building a new bathroom. A choice of finish is available to personalize the look: Chrome creates a bright, fresh appearance; brushed nickel softens the contemporary style with a transitional glow; oil-rubbed bronze provides a hint of vintage flair.

Refresh your bathroom décor with the Coda™ series, and experience Kraus Quality at its best.

Aquila™ Series

Add a sophisticated modern touch to your bathroom décor with the Aquila™ family of faucets. These sleek, universal faucets feature precise lines and streamlined silhouettes, making them ideal for the transitional and contemporary bathroom alike. Designed to replicate the shape of the spout, the slim single-lever handles enhance the visual impact of the minimalist body.

Every Aquila™ faucet is manufactured using top-quality components, including a best-in-industry Kerox ceramic cartridge for reliable drip-free use and a high performance/low flow Neoperl aerator.

Two installation options are available, for a range of applications: The vessel model can be paired with all semi-recessed and vessel sinks; the basin model coordinates with all undermount and basin sinks. A choice of finish is available to customize the look: Brushed nickel adds an industrial edge, while chrome creates a refined, polished appearance.

Outfit your bathroom in style with the Aquila™ series, and experience Kraus Quality at its best.
