How To Make A Texture Canvas Art

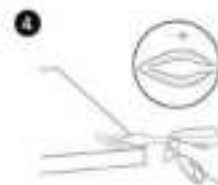

Mix the modeling paste choose with your desired acrylic paint colours and mix until blended. Add more paint to lighten colours, or more modelling paste to lighten colours.

Take some modelling paste mixture onto a flat surface and mix.

Form a shape and scoop mixture onto the back of the palette knife ready to apply to the artwork.

Apply the modeling paste to the canvas and gently press down and slide away, to make an indent in the form and make a petal shape. The direction is from center to center.

Cover the canvas with a variety of petal and leaf colours. Wait 24 hours after completion to dry and display your artwork.
