Designed for your lifestyle

- 21 days of regular brushing

Feel the care of Sonicare

- Superior plaque removal and whiter teeth
- Next-Generation Sonicare Technology
- Extra support to protect your gums

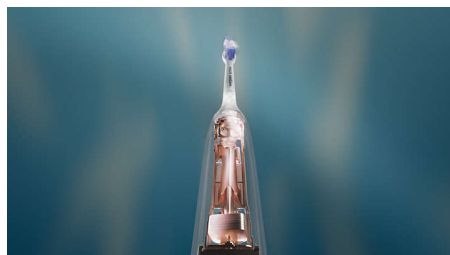

Highlights

Whiten and brighten

Whiter teeth are within reach with this whitening brush head's central stain-removal pad. The diamond-shaped bristles are designed to increase surface contact and clean away stains more effectively. It also uses densely packed bristles to remove 7 x more plaque than a manual toothbrush, while treating your whole mouth to a refreshing clean.

Next-Generation Sonicare Technology

This electric toothbrush uses our Next-Generation Sonicare Technology which delivers our most reliable and consistent brushing for excellent results every time. The motor adjusts power automatically so there is zero drop in performance when you reach those harder-to-clean areas. Enjoy a gentle yet effective clean for your teeth and gums with 62,000 bristle movements per minute. Sonicare Fluid Action supports the bristles to clean by driving fluid deep between the teeth and along the gumline.

Pressure sensor

It's easy to brush too hard, so this Philips Sonicare toothbrush has a smart optic sensor to detect excessive pressure. The sensor lets you know if you're overdoing it through haptic vibrations. Ease off and your gums will stay protected!

Modes and Intensities

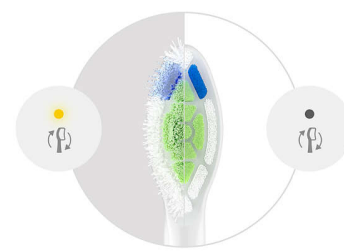

Give your clean a boost with 2 brush settings. Whether you want a little more vigour or a gentle clean, choose between one of two intensity settings.

SmartTimer and BrushPacer

Ace your session time with Sonicare's cleaning timers. Every 20 seconds, the BrushPacer will prompt you to clean a new area. After 2 minutes, the SmartTimer will indicate your session is complete.

Replacement reminder

Did you know brush heads become less effective after three months? Dental professionals recommend changing your brush head regularly. That's why Philips Sonicare toothbrushes have brush head replacement reminder. It tracks how often and how hard you brush, then reminds you to replace your brush head once it's time for a new one.

21-day battery life

Experience up to 21 days of regular brushing after a single charge, bringing a new level of convenience to your brushing routine.
