

AUTOMATE™

Battery Wand Battery Pack

This re-loadable battery tube uses eight long-lasting, readily available lithium AA batteries (not included) to power your Automate Shades and blinds. All mounting clips and hardware included.

VERSATILE MOUNTING SYSTEM

Mount vertically or horizontally depending on shade or system application

BATTERY HEALTH

Direct replacement for older model battery wands (AA Li-ion Battery Model).

ARC™ (Automate Radio Communication) is Rollease Acmeda's proprietary technology utilising 433MHz radio communication with bi-directional feedback that brings Automate motorised shading systems together.

7 YEAR WARRANTY
