Add device

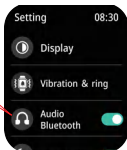

During connection process, there will be a prompt to ask whether to open the notification and open permission.

Please confirm that open notification reminder and allow all permissions. If not authorized, it will affect the information remind, address book and other functions).

1. You could turn off "Audio Bluetooth" in the settings due to person privacy or power saving, please pull down the main page - - turn off "Audio bluetooth", as shown in the picture.

(This switch only turns off Bluetooth call and Bluetooth playback)

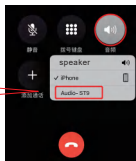

Can be closed manually  
Call icon is gray

2. If you want to answer or make a call from smart watch, you must manually switch to smart watch on you mobile phone

As shown in the picture below right.

Switch back to  
Audio\_ST9 on  
the phone

## Why the watch can't receive the message notification?

If you want to receive the messages notification, Please make sure you have turned on the mobile phone Bluetooth., the "Da Fit APP" is running in the background. and the watch is always connecting to the mobile phone Bluetooth !

### NOTE:

If you are using your mobile phone or phone unlocked, or the software (whatapp, SMS, facebook...) is logging in the computer, the smart watch will not push messages for reduce power consumption and disturbing. Please turn on all the notification permission (WhatsApp, Facebook, Twitter, Phone, SMS.) at the DAFIT APP

Android mobile phone background will automatically clean up the App which not commonly used, it may cause the watch connection, affect notification pushed.

1. Make sure turn on message push in Dafit setting.
2. Make sure the message can be displayed in mobile phone's notification bar, message notification is pushed by reading the phone notification bar, the watch can't get notification if the message push closed in mobile phone setting .

### XIAOMI

Setting-apps-permissions-Autostart-open the Da Fit

### HUAWEI

Setting-apps&services-app launch-open the Da Fit

### SAMSUNG

"Smart Manager "- find the "Auto-Run Application" option, --enter the "Auto-Start Application" setting interface - open the auto-start setting program.

**\*\*If the notification still cannot be displayed, please try to reset the watch, or reinstall the APP.**

## Smart Watch Features

### Heart Rate Test

The Smart Watch could record your heart rate all day.

You also could tap on the page to start heart rate measuring .
