Release Package:

File name	Requires	md5sum	Description
NAS_Starter_Utility_NSU 2.1.1.15.0520_build_1064_Win.p df			This document (release note)
NAS_Starter_Utility_Setup_2.1.1. 15.0520_build_1064.exe			NAS Starter Utility installation file for Windows multi-language version, which include English, Tradition Chinese, Russian

Known Issue:

- NSA210 is not supported in this version, please don't use it for shipping.
- Please use NSA325 firmware V4.30(AAAJ.2)C0 or further version to test tool button "Dropbox".
- NAS540/520 don't support zPilot

Complete Features List:

- Discovery:
 - ⇒ Discover all the NAS produced by ZyXEL under the same subnet.
- Configuration:
 - ⇒ Configures the following properties of NAS.
 - ◆ Host name
 - ◆ Network configuration.
- Network Drive:
 - ⇒ Mounts the shares of NAS to the PC running NSU.
- Initialization:
 - ⇒ Guides users to configure some properties of NAS and delete/create volume.
- zPilot:
 - ⇒ Auto-classify and upload files to some specific shares on NAS. If users drag a folder to zPilot, a dialog would pop up for users to select the target share. The source folder will be uploaded to the folder named with the date in the selected share. If users drag files to zPilot, the relation between the uploaded file type and the target share are as follows.
 - ◆ Video type → /video/\$DATE/
 - ◆ Music type → /music/\$ARTIST/\$ALBUM/
 - ◆ Photo type → /photo/\$DATE/
 - ◆ Torrent type → /admin/download/torrent/
 - ◆ Other type → /public/\$DATE/
 - ⇒ Please refer to the Related Document for the classification rule of supported file types.
