

Dear Valued Customer,

Thank you for choosing this product! In order to better understanding its performance and use it safely, please read this user manual carefully before using. Please keep this user manual for future reference. Yours sincerely

Features:

- 1.High-tech Bluetooth wireless system, 360 degrees levitating in the air with 14mm above the base.
- 2.Super bass stereo music system, high quality music effect transmission.
- 3.Built-in Microphone, support hands-free phone call.
- 4.The Orb speaker can be used as a standalone Bluetooth speaker without the base.
- 5.Colorful flash LED light designed on the orb and base.

How to get the Orb speaker levitating

- 1.Place the base on the horizontal surface ,plug the adapter in powersupply and DC Jack .(Note: there is strong magnet in the base ,keepit away from any metal )
- 2.Hold on the Orb speaker tightly and horizontally with two hands, then put it 10cm above from the top surface of the base and move it vertically downwards the painted circle on the base slowly to try to get the levitating point
- 3.Once feeling a strong force that is suspending the Orb speaker from the base , this position (about 15cm above the top surface of the base ) is the levitation point. At this moment, release the Orb speaker carefully (Note: if fail to get the levitating point up to 10 times, the base will get heat .Please stop and unplug the adapter to let the base cool down for 10 minutes, then try again )
- 4.Rotate the Orb speaker slightly and it will spin automatically

Levitating Speaker

#### FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

#### RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20 cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
