

SmartVision40 Installation and Deployment Guide

Package Contents

TIP

- We recommend that you use the accessories provided or approved by Yealink. The use of unapproved third-party accessories may result in poor performance.
- Use the Yealink original power adapter to charge the endpoint only. The use of the third-party power adapter may cause damage to the endpoint.

Assemble Cable Cover

Install SmartVision 40

Install SmartVision 40

① NOTE

It is recommended to deploy SmartVision 40 at least **1m** from the front row of participants.

- **Put on a Flat Surface**

- **Mount on a Wall**

Step 1: Determine SmartVision 40 position

The mounting height affects your camera view. The recommended height is 110 cm above the ground.

Step 2: Mount the SmartVision 40 to the wall

This deployment plan meets the ADA regulatory requirements in the United States.

• Embed in the wall

The mounting height affects your camera view. The recommended height is 110 cm above the ground.

① NOTE

- Keep the front of the SmartVision 40 flush with the wall surface.
- The recommended on the left, right, and top sides of the SmartVision 40 is less than 0.5 cm.
- Leave a 5 ± 0.5 cm distance between the back of the SmartVision 40 and the wall surface for cable connections.

• Mount on the Tabletop Mount

• **Mount above a TV or a display**

NOTE

- The M-2 bracket can be inserted into the M-1 in two directions. Here, we will focus on one direction for illustration.
- Due to device weight, it is advisable to avoid mounting the device on slim TVs to prevent potential falls or damage to the screen.
