SAFETY INSTRUCTIONS

To avoid hearing damage, limit the time you use headphones at high volume and set the volume to a safe level.

Be sure to observe the following guidelines when using the earbuds:

1. Keep your listening volume at a reasonable level during extended playing.
2. Make sure to adjust the volume gradually as your hearing adapts.
3. Keep the volume at a level where you can hear your surroundings.
4. Use caution or discontinue use in hazardous conditions.
5. It is not recommended to drive with the earbuds in and could be illegal in some areas.
6. Avoid distractions from music or calls while in traffic or other potentially dangerous environments.

FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and can radiate radio frequency energy and, if not installed and used in accordance with these instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off

and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference and
- (2) this device must not accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
