This bed wedge pillow set has been conceived to provide you extensive comfort whenever you want to rest, read or watch TV. As the pillows offer soft and firm support, they make your head, neck, back, and legs comfortable by allowing them to be in an elevated angle, suitable for such activities. Hence, it helps you prevent numbness, neck or back pain, and spinal injuries or stress.

The LX13 Memory Foam Wedge Pillow Set is designed as a personal care product. It is not intended for diagnosis/treatment of any health condition.

Before Using the Pillows:

FIRST STEP

With billions of tons of packaging waste populating landfills across the world, here at Unix, we understand the importance of sustainability in packaging and we are trying to provide environment friendly options in order to reduce our carbon footprint.

That's why the Unix Wedge Pillow Set is compressed to use 60% less carton. This process does not affect in any way the pillows. Simply release the pillows from the packaging and let them naturally recover to their initial shape during 48 h.

The LX13 Wedge Pillow Set by Unix is designed to be as versatile as your imagination can go. There is no one correct position, you can create your own configuration according to your needs.
