

FIBRECLASSIC
YOU CHOOSE OFFER SUMMARY
7 AUGUST 2025

Service overview								
Service description	FibreClassic is a fibre broadband plan, with an optional landline service for residential customers. The You Choose offer is only available when bundled with an electricity service. When your house is connected to our network via a fibre optic connection, the throughput is both higher, and of a better consistency, than ADSL broadband. This means that fibre will deliver a faster speed.							
Availability	Fibre broadband is not available everywhere in New Zealand. You can check your availability of our services when signing up on our website or by calling us on 0800 789 505.							
Service charges	Prices are current as at 7 August 2025 and are subject to change. To find out more about our current pricing give us a call on 0800 789 505. Broadband charges <table><tr><th>Plan</th><th>Monthly data allowance</th><th>Monthly Charge</th></tr><tr><td>FibreClassic</td><td>Unlimited</td><td>\$96 per month*</td></tr></table> *Pricing is subject to change with 30 days' notice. Mercury may pro-rate charges when you join (depending on the date you join), move, cancel, or if you switch between plans. See our offer terms and phone and internet terms for more detail. The You Choose offer is only available to new residential customers who join Mercury for electricity and broadband services at the same address on a 2 year term. The joining bonuses that can be chosen from as part of this offer are determined by the broadband plan chosen at the time of sign up. It is possible to upgrade to a different range of products by making an upfront top-up payment.		Plan	Monthly data allowance	Monthly Charge	FibreClassic	Unlimited	\$96 per month*

\$0

\$0 ^{††}

\$240 ^{††}

[†] Please be aware that use of an incompatible router may degrade the performance of your broadband service.

^{††} Your eero router can be paid for over 24 months, in equal interest-free monthly instalments of \$5.00 per month, per router, including GST. A \$14.95 postage and handling charge applies.

Additional data charges

With unlimited data broadband, there will be no additional data charges.

Set up charges

There is no upfront installation charge for standard fibre aside from router postage and handling. However, if your home is more than 200m from where the fibre cable access point is on the street, or you need additional in-house wiring installed, there may be an additional installation cost.

If you cancel your fibre services after the local fibre company has commenced the installation process, but before your services are live, charges may apply.

Find out more about the [installation process](#).

Other charges

As set out in "Set up charges" above, additional charges may apply for items such as non-standard installations and additional in-home technician work performed at the time of connection.

Electricity and gas (if applicable) charges will also apply for your energy services.

Broadband performance

Performance

Actual speeds you experience are affected by many factors including the device you are using and its capabilities, the number of devices connected, your operating system and web-browser, and if you're connecting wirelessly to your router.

Find out more about [factors that may influence your speed](#).

If you have a router supplied by Mercury, this router is capable of providing the industry national peak time average speeds, subject to the other factors described above. If you are using a router not supplied by Mercury, you may not be capable of receiving the stated speeds for Mercury's FibreClassic service.

See [Measuring Broadband NZ](#) for independent information on broadband performance across different providers, plans and technologies. You can also view the [latest reports](#).

Access type

Your access type will be fibre broadband.

Notice period (Termination)	After the end of the term, you can cancel your services at any time by giving us at least 5 working days' notice. You'll be responsible for any charges until your disconnection date. View our phone and internet terms for more information.
Other requirements	Please note: The You Choose offer is not available in conjunction with any other offer. View our offer terms for more information.
Traffic management	Mercury customers on broadband plans are currently not shaped in any way. From a connectivity point of view, unlimited data plans are treated in exactly the same way as limited or capped plans. Generally, our peak traffic times are between 3:30pm and 11:00pm. Customers may experience congestion during these periods. At peak times there may be congestion on the network however, we are always working to provide the best possible service we can. We do, however, reserve the right to apply traffic management policies to customers on unlimited data plans should this become required in the future.
Service restrictions	We have a service restriction policy in place which may influence your broadband performance. See clause 5.5 of the phone and internet terms.
Fair use policy	No fair use policy applies.
Effects on other services	Your fibre broadband service requires mains electricity to operate. If electricity is not available (e.g. during a local electricity outage) then your fibre broadband, and any services which run over it, may stop working unless you have battery backup in your home. This means services such as landlines, medical alarms, and security alarms may stop working. It is your responsibility to check with the provider of existing services to make sure they will operate under such circumstances. This may also mean you're unable to contact 111 in an emergency. We recommend having a charged mobile or alternative arrangement in place.
Complaints	At Mercury, we value customer feedback and take care to address complaints. Information about our process for customer complaints.
Disputes	Mercury is a member of the Telecommunications Disputes Resolution (TDR) scheme, a free independent service to help customers resolve broadband disputes. For more information about TDR, see their website.

All prices and fees quoted are inclusive of GST (if any).
