Features and Benefits – VCA-SAE90 (Continued)				
Headline	Feature Name	Long Body Copy	Short Body Copy	Associated Image
Loosens dust to empty thoroughly	Air Pulse Technology	Effectively* empty the entire dustbin with Air Pulse technology, a pulsating air flow pattern that shakes off any excess dust from the bin to fully capture everything in the emptying process. *Results may vary depending on individual use. Dust and hair stuck inside the grille may not be removed with a single cycle.	Pulsating airwaves help loosen the dust in the bin for a more effective emptying process.	
Keeps the bin closed during cleaning	Double-Button Locking Structure	Double-button locking structure ensures the bin does not open during cleaning.	Ensures the bin does not open during cleaning.	
Easily know when to empty the bin	LED Notification	Quickly and intuitively check when it is time to empty the bin with the blue LED notification light, which turns red when the bin is full.	Blue LED light changes to red for a quick notification that it is time to empty the bin.
