2021 Tiguan
Quick-Start Guide

Optional features shown.

The information within this guide must be used in conjunction with the information in the Volkswagen Owner's Manual. You should refer to your vehicle's Owner's Manual, and Infotainment System Booklet for all information, warnings and feature limitations. Always pay careful attention to the road and do not drive while distracted. Some Infotainment features can only be accessed and operated when the vehicle is standing still.

1. Digital Cockpit/Instrument Cluster*
Displays vehicle system and function information. You can customize the display using the multi-function steering wheel controls.

2. Infotainment
Touch-sensitive buttons that control the various Infotainment functions, including radio, media selections, the App-Connect function, phone operation, vehicle functions and the optional Navigation system.

3. Start-Stop System
When the light is off the system is activated. System is deactivated when the light is on. Start-Stop is automatically activated when the ignition is switched on. See operating conditions in Owner's Manual.

4. USB-C Port
USB Type C ports ⛛ allow you to connect your mobile phone to your Tiguan using the latest generation of USB. To utilize USB Type C, you must have a compatible cable. To find a cable that converts your phone's charging port to a USB Type C connector, **click here.**

5. Wireless Charging
Can charge a Qi-capable mobile phone without the need to plug in a cable. Simply place it securely in the center of the surface with the display facing up. The Infotainment system will indicate when charging begins.

6. Steering Wheel Left Side Controls
Buttons for operating the Cruise Control and Adaptive Cruise Control,* as well as radio volume settings, Navigation system notifications and phone calls.

7. Steering Wheel Right Side Controls

Voice Control Button: Activates the Voice Recognition System. A short press will activate Volkswagen Voice Control.* A long press will activate third party voice control with a compatible smart phone connected to App-Connect.

VIEW Button: For vehicles with a Digital Cockpit, switches between wide and standard display.

OK Button: Used to select settings for features in the instrument cluster display.

Horizontal Menu Buttons: Used to navigate through the instrument cluster main menus.

Vertical Arrow Buttons: Push to navigate inside a specific menu.

Horizontal Arrow Buttons: Push to change radio stations, scroll through radio presets or select the next or previous media track.

8. Remote Start* (not shown)
If your vehicle is equipped, the engine can be started from outside the vehicle with the **Remote Start** button, allowing the HVAC system to heat or cool the interior. On your key fob, press the **Lock** button, then the **Remote Start** button (x2) twice.

*Available on select trim lines.

Introduction to Your Tiguan

Enter the 3rd Row

1. Pull the entry assistance lever on the top of the seatback to unlock the seatback.
2. Tilt the seat forward until it locks.
3. Pull the seat release strap and slide the seat forward.
4. Carefully enter the 3rd row seating area and guide the base of the seat back into place.
5. Pull the seatback into place.

Exterior color shown not available for model year 2021 vehicles.

Exit from the 3rd Row

1. Pull the entry assistance lever on the top of the seatback to unlock the seatback.
2. Pull the seat release strap and slide the seat forward. You can now exit the vehicle.
3. Push the 2nd row seat base back into place.
4. Tilt the seatback into place.

Note: 3rd row seating available on select trim lines.

▶ Watch the Third Row Seating video.

Electric Luggage Lid Close Button

• Push button on the rear trunk lid edge. The trunk lid moves to the closed position and the soft close mechanism locks.

Trunk Lid with Easy Open Motion Sensor

Easy Open/Close is standard equipment on the SEL Premium R-Line.

The ignition must be off and you must be carrying your vehicle key on your person, e.g., in your pocket, hand or purse.

1. Move your foot and shin close to middle of bumper (in a kicking motion, without contacting the bumper) to activate feature.
2. The trunk lid opens automatically.

To use Easy Close:

1. Move your foot and shin close to middle of bumper (in a kicking motion) to activate feature.
2. A beep will begin to sound. Easy close is activated for approx. 20 seconds.
3. Remove all vehicle keys from the area near trunk lid. The trunk lid will close automatically.

Note: The locking procedure is interrupted as soon as the vehicle key returns to the area near the trunk lid. Begin the procedure again to attempt to close. Easy Close permits locking a maximum of one vehicle key in the luggage compartment. Vehicle key in the luggage compartment.

Exterior color shown not available for model year 2021 vehicles.

▶ Watch the Easy Open Trunk video.

Changing and Saving the Opening Angle

If you would like the trunk to stop opening at a lower angle:

1. Interrupt the opening process at the desired open position. It must be at least half open.
2. Press and hold the ⌒ on the trunk lid until the emergency flashers start flashing and an audible signal is heard.

To reset the opening angle:

1. Push the trunk lid all the way up by hand. It will require more force than usual.
2. Press and hold the ⌒ in the trunk lid until the emergency flashers start flashing and an audible signal is heard.

⚠ **Warnings:** See **Entry Assistance and Luggage Compartment Lid** in your Owner's Manual for more detailed information and for important safety warnings.

Entry Assistance and Power Trunk Lid

Locate the Cruise Control buttons on the left side of the multi-function steering wheel.

- Press the ⟳ button to activate the Cruise Control.
- A speedometer icon ⟳ will appear in the instrument cluster display.

Set Cruising Speed

1. When you get to your cruising speed, press the **SET** button on the multi-function steering wheel.
2. A green cruise control indicator light ⟳ will appear in the instrument cluster display.
3. To increase/decrease the speed by 1 mph increments, press the **+** or **−** button.
4. To increase/decrease the speed by 5 mph increments, press and hold the **+** or **−** button.

Cancel and Resume Cruising Speed

1. To cancel the cruise speed, press the brake pedal or press the ⟳ button once on the multi-function steering wheel.
2. The green cruise control indicator light ⟳ will disappear.
3. To resume your set speed, press the **RES** button on the multi-function steering wheel.

Turning Cruise Control System Off

- Press ⟳ twice.

Adaptive Cruise Control Distance Level Setting

Applies to vehicles equipped with Adaptive Cruise Control.

Adaptive Cruise Control (ACC) helps maintain an individually stored constant speed and a previously set distance in time intervals between your vehicle and those in front of you. When you approach a slower moving vehicle in front of you, the vehicle may brake if the situation requires. When the vehicle is no longer present, ACC will accelerate back to the stored speed.

You can set the speed-dependent distance from the vehicle ahead to one of five levels.

- When the **ACC** button is pressed to set distance level, the 🚗 indicator light illuminates in the instrument cluster display.
- To change the ACC distance interval, press the 🚗 button to cycle through the distance intervals. When the shortest interval is reached, the distance returns to the greatest interval when the button is pressed again.
- When the ACC system brings the vehicle to a stop for more than 3 seconds, briefly press the accelerator pedal to resume Adaptive Cruise Control.

Note: This feature is not a substitute for attentive driving. See the Owner's Manual for further details and important limitations.
▶ Watch the Adaptive Cruise Control video.

Optional feature shown.

▶ Watch the Cruise Control video.

Deactivating Adaptive Cruise Control

Applies to vehicles equipped with Adaptive Cruise Control.

To deactivate Adaptive Cruise Control, and use Conventional Cruise Control:

1. Press the 🚗 button, located on the left side steering wheel controls.
2. Using the vertical menu buttons ⇕ on the steering wheel, scroll to **Speed**.
3. Select **Cruise Control** in the instrument cluster display then press the OK button.

Adaptive Cruise Control is now deactivated, and your vehicle will maintain the set speed using conventional cruise control.

▶ Watch the Deactivate ACC video.

Assistance System Setting

If your vehicle is equipped with Driver Assistance features, you can access the Assistance system settings menu in the Infotainment system, allowing modification to the Driver Assistance feature operation.

1. Press the **Menu** button.
2. Press **Assist Syst.** icon on the display.
3. Touch the image that represents the feature.

OR

1. Touch 🚗 to access **Assistance system settings**.

Dramatization.

Settings
⚠ **Warnings:** See **Driver Assistance Systems** in your Owner's Manual for more detailed information and for important safety warnings.

Driver Assistance Features

Climatronic system available only on certain models.

- To cool off or warm up automatically, press the **AUTO** button to turn the system on.
- Adjust the driver's temperature dial to your preferred setting.
- Press the **SYNC** button to synchronize the temperatures between the zones. If there is a large temperature difference between the two zones, it may hamper the system's ability to quickly cool the interior.
- In extreme heat, press the **MAX A/C** button. When a comfortable temperature has been reached, press the **AUTO** button.

▶ Watch the Automatic Climate Control video.

Max Defrost/ Rear Defrost ①

1. Press the **Max Defrost** button. It is recommended to turn the temperature setting to **HI** for quickest defrost/defogging.
2. The A/C function comes on automatically and it is recommended to leave A/C on to dry the air.
3. When the windshield is clear, press the **AUTO** button.

Select the 🔲 button, located on the driver's door panel, to switch on outside mirror heating. Outside mirrors will only heat when outside air temperatures are below +68F (+20C).

Note: In the event of significant fogging, opening a window briefly can help.

▶ Watch the Climate Control/Defrost video.

AUTO ②

When **AUTO** is activated, it will operate like a thermostat to maintain the set temperature.

1. Turn the driver side temperature dial to the desired temperature.
2. Press the **AUTO** button if it is not already illuminated.

SYNC ③

The driver's settings will be applied to the passenger and rear climate zones.

1. Select your preferred temperature with the left temperature dial. Adjust the fan speed and vents if necessary.
2. The light on the button will illuminate showing the sync feature is active.

Air Distribution ④

The **Air Distribution** buttons direct air to the floor, panel, defrost vents or a combination of vents.

Seat Heating ⑤

To warm up quickly on a cool morning, press the 🔲 button for seat heating.

⚠ **Warnings:** See **Climate Control** in your Owner's Manual for more detailed information and for important safety warnings.

Climatronic Climate Control

Discover Media Touchscreen Navigation System

1. Press the **NAV** icon on the touchscreen.
2. Select the **search** icon 🔍 .
3. Begin entering a Point of interest (POI) or address information with House number, Street and City.
4. When your search address or POI appears in the drop down suggestion bar, select the correct address on the screen.
5. Select **Start** to begin the route.

Applies to vehicles equipped with Navigation feature. When entering an address for another state, use only the two-character abbreviation for the state. Entering a destination on the touchscreen or changing any settings can only be done when the vehicle is stationary.
Additional Settings

With **Route Options** you can:

- Choose between 3 alternative routes if available by clicking on route info panel where the most recommended route is highlighted in blue.
- Use Dynamic route guidance* if online traffic is available.

Before starting your route:

- Route criteria can be modified by tapping ⚙ .

After starting your route:

- Modifications to the current route such as avoiding tolls or seasonal restricted roads is possible by tapping ⚙ .
- Route criteria can also be modified by tapping ≡ and selecting 🏁 .

Image shows route info panel with reccomended route in blue.

*Requires paid subscription, vehicle to be equipped with MIB3 infotainment system with navigation, acceptance of VW Car-Net Terms of Service, active data plan, and vehicle cellular and GPS connectivity.

Note: Always pay careful attention to the road, and do not drive while distracted. SiriusXM audio and data services each require a subscription sold separately, or as a package by Sirius XM Radio Inc. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at the current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com. All fees and programming subject to change. Sirius, XM and all related marks and logos are trademarks of SiriusXM Radio Inc.
Points of Interest (POI)

To find a specific Point of Interest:

1. Press the **NAV** icon. Then press 🔍 on the touchscreen to open the keyboard function to search POIs.
2. Search for your desired POI i.e., airport.
3. Select **Start** to begin route guidance.

OR

1. Press the **NAV** icon, then select a POI currently displayed on the map (this is great for finding nearby fueling stations).
2. Select **Start** to begin route guidance.

Cancel Active Route Guidance

1. Press **Stop Route Guidance** 🏁 directly.

OR

1. Select **Menu** icon ≡ in the Navigation screen.
2. Select **Stop Route Guidance** option on the touch screen.

Alternative Navigation

Turn-by-turn directions are also available by mirroring your favorite smartphone app to your Infotainment screen. Using the maps app on your device, you can connect to Volkswagen App-Connect wirelessly if available, or you can connect by using a manufacturer-approved USB-C cable.
Volkswagen Car-Net®

VW Car-Net is your connection to available features like emergency services (paid subscription). The five year no charge Remote Access* package allows you access to:

Mobile App	Maintenance Alerts & Scheduling	Valet Alert
Remote Door Lock/Unlock	Vehicle Health Reports[2]	Boundary Alert
Remote Honk and Flash	DriveView[2]	Speed Alert
Remote Start[1]	POI/Destinations[5]	Roadside Call Assist[7]
Vehicle Status[2]	Parking Information[6]	
Last Parked Location[3]	Curfew Alert	

Car-Net® Enrollment Process[8] (if not performed by dealer):

- Download the "Volkswagen Car-Net" mobile app from the App Store.
- Select Login to register and create your unique VW ID.
- Log in to Car-Net mobile app with your VW ID, complete your profile and create a PIN.
- Add your vehicle to your Garage by entering VIN and follow the steps to verify ownership.

Pairing/Remote Start (available on select trims):

- Log in to VW Car-Net mobile app with your VW ID and PIN.
- On first log-in, accept the pairing request. If you do not receive this request, then you can initiate it by going to Manage Paired Devices under the Account Management screen 👤 .
- Accept the pairing confirmation in the vehicle's display.
- Remote start is now enabled.
- Press ⌒ to start the vehicle from any location.

[1] Applies to vehicles equipped with remote start feature.
[2] Refer to your vehicle's warning and indicator lights for the most current diagnostic information. Always consult owner's literature for maintenance guidelines.
[3] Do not use feature to locate stolen vehicle.
[4] Must agree to separate Terms of Service.
[5] Applies to vehicles equipped with Navigation System.
[6] Powered by Parkopedia. Requires parking facility participation. Volkswagen not responsible for accuracy of pricing & payment options, hours of operation, and features. See parkopedia.com for important information and details.
[7] Roadside Call Assist connects you to a Roadside Call Assist third-party provider and may require additional payment for services rendered.
[8] Assistance can be provided by pressing the ⓘ button in the vehicle's overhead console.

*Available on most MY20 and newer vehicles. Always pay careful attention to the road and do not drive while distracted. Certain services require trial or paid subscriptions, which may have their own terms and conditions. VW Car–Net requires cellular connectivity, availability of vehicle GPS signal, and acceptance of Terms of Service. Not all services and features are available on all vehicles. Certain Car-Net services, such as Roadside Call Assist, connect out to 3rd party providers that may require additional payment. Standard text and data rates may apply for app and web features. Certain services may collect location and vehicle information. See Terms of Service, Privacy Statement, and other important information at www.vw.com/carnet.

▶ Watch the Car-Net Self Enrollment Process video.

▶ Watch the Car-Net Mobile App WiFi video.

▶ Watch the Car-Net Mobile App Remote Start video.

⚠ **Warnings:** See **Navigation** in your Infotainment System Booklet for more detailed information and for important safety warnings. Navigation is an optional feature.
⚠ **Warnings:** See **VW Car-Net** in your Owner's Manual for more detailed information and for important safety warnings.

1. Be sure to check your phone's compatibility at **www.knowyourvw.com/bluetooth**.

2. With the ignition on and the vehicle in Park, turn the Infotainment system on. Your vehicle's Bluetooth system will be in "discovery" mode.

3. From the Bluetooth menu on your phone, search for new devices and select VW BT XXXX (last four digits of VIN).

4. A connection request will appear on the Infotainment display.

5. Press **Connect** on the Infotainment display.

6. The Infotainment display will then show a PIN.

7. Make sure the same PIN is displayed on your phone and press **Yes** on the Infotainment display, then press **Pair** on your phone.

Note: If your phone displays a prompt asking to connect to your vehicle, make sure to enable future automatic connections. This will help to automatically reconnect the compatible paired device to the system. Once the PIN is shown, pairing must be completed within 30 seconds; otherwise, the process will need to be repeated.
Primary and Secondary Phone Functionality

Two active phones can be connected simultaneously. Follow steps 1-7 above. Only contacts from the primary phone will be shown within the Infotainment system. Switching between phones requires pressing the **Swapping** icon.

Note: This feature is not available when the phone is connected to App-Connect, Apple CarPlay® or Android Auto™.

▶ Watch the Phone Pairing video.

Call by Name via Native Bluetooth Technology

Applies to vehicles with Voice Recognition feature.

1. Short press the **Voice Control** button on the multi-function steering wheel.

2. After the chime say, "Call," followed by the name of the person you want to call. For example, "Call Mike Brown."

3. The system will confirm, "Do you want to call Mike Brown?" You then reply, "Yes." If the contact has multiple numbers, select or say the desired line number on the screen when prompted. Once selected, the system will then say, "Contact is being dialed."

Note: If connected to App-Connect, Apple CarPlay, press and hold the Voice Recognition button to activate Apple Siri > then say, "Call Mike Brown."
▶ Watch the Voice Recognition video.

Voice Recognition Tips

- The contact must be said exactly as it is stored in your phone's contact list.
- If multiple numbers are stored per contact, you may use the shortcut, "Call John Smith work," or the system may ask you to choose: work, mobile, home, etc.

Answer an Incoming Call

The Bluetooth system will interrupt your car stereo with a ringtone. Press the **OK** button on the multi-function steering wheel or the green **Phone** icon on the Infotainment touchscreen to answer the call.

Volume Settings

To adjust the volume of the Bluetooth system while on a call, press the **Volume Up** or **Volume Down** switch on the left side of the multi-function steering wheel.

Switch to Private Mode

To prevent passengers from overhearing a conversation, switch a Bluetooth call to your mobile phone:

1. Once a call has been answered, use the **Horizontal Menu** buttons on the multi-function steering wheel to access the Phone menu in the instrument cluster display.

2. Press the **Vertical Arrow** buttons on the right side multi-function steering wheel controls until "Private" appears in the display.

3. To select, press the **OK** button on the multi-function steering wheel.

End a Call

If you are in the Phone Menu function, press the red **Phone** icon on the touchscreen. Or:

1. Use the **Horizontal Menu** buttons on the multi-function steering wheel to access the Phone menu in the instrument cluster display.

2. Press the **Vertical Arrow** buttons until "End" appears in the display.

3. Press the **OK** button on the multi-function steering wheel.

Cancel Active Voice Recognition or an Active Route

Double press the **Voice Control** button on the multi-function steering wheel to end Voice Recognition. To end an active route, short press the **Voice Control** button and say "Cancel destination" after you hear a beep.

Destination Entry with Voice Recognition

1. Short press the **Voice Control** button on the multi-function steering wheel. A beep will sound.

2. Say, "New destination."

3. After the beep, speak the address. For example, "Two zero two four Main Street, Los Angeles." Speak in single digits.

4. The system will repeat the address for confirmation and ask if you would like to start route guidance. After

Bluetooth Technology® / Voice Recognition

Volkswagen App-Connect makes your Volkswagen more like a personal assistant. To start App-Connect, pair your smartphone to your VW's Bluetooth and watch as your select apps appear on the touchscreen display of your Volkswagen, without even having to take it out of your pocket or purse! Need a couple extra bars on your phone's battery? Plug your phone into your VW's USB port, and enjoy all the same benefits, while getting a charge—beyond just your driving experience.

Wireless App-Connect with Apple CarPlay Integration

To connect:

1. Pair your phone to the Volkswagens Infotainment system with Bluetooth.
2. A prompt will display on the vehicle touchscreen asking if you want to use Bluetooth or Apple CarPlay.
3. Select Apple CarPlay. If this is the first time, accept the confirmation on your iPhone®.

OR

1. Simply unlock your iPhone and plug it into the USB port using a certified lightning cable. After choosing to use Apple CarPlay, your iPhone will ask if you'd like to use Apple CarPlay wirelessly for future connections.

Note: Please confirm all prompts from App-Connect on the mobile device for successful Apple CarPlay connection.

▶ Watch the Apple CarPlay Wireless Connection video.

Apple CarPlay®

Apple CarPlay is a smarter way to use your iPhone while you drive your Volkswagen. With an updated user interface that helps you control tunes, turns and Siri® suggestions, a calendar app that lets you view and manage your day, and maps that reveal more of what's around you, getting there just got a whole lot easier—and a lot more fun.*

1. Ensure you are running the latest iOS on your device.
2. Unlock your iPhone and plug it into the USB port using a certified lightning cable.
3. A screen will appear on the Infotainment system stating that a new device has been detected and will ask, "Do you want to connect with Apple CarPlay?" Select **Connect**.

OR

1. Pair your iPhone to your Infotainment system's Bluetooth connection. When the "Select a connection technology" pop-up appears, select **Apple CarPlay**.
2. Select Allow on iPhone to enable Apple CarPlay to access your iPhone while your phone is locked.

Note: You will have to have had an unlocked iPhone within the past hour in order to use Apple CarPlay. When you are connected using Apple CarPlay, your iPhone can no longer be used as a source in MEDIA or as a Bluetooth device. Apple CarPlay is compatible with iPhone 5 or higher running iOS 7.1 or later. Further information can be found at support.apple.com and siriuserguide.com. Apple CarPlay is a trademark of Apple Inc.

▶ Watch the Apple CarPlay USB video.

Features

Apple CarPlay features Siri voice control. Siri must be enabled on the device to use Apple CarPlay. There are two ways to activate Siri:

- Press and hold the **Voice Control** button 🎤 on the multi-function steering wheel until you hear the tone, which activates Siri.
- Press and hold **Home** on the touchscreen to activate Siri.

1. **Home** features include:
   - Return to the Apple CarPlay home screen or to the Apple CarPlay Dashboard.
   - Long press to activate Siri.
2. **Phone**: Siri can help you make calls, return missed calls and listen to voicemail.
3. **Maps**: Opens Apple Maps for turn-by-turn directions, traffic conditions, immersive 3D experiences and estimated travel time. Siri can also help with directions. Activate Siri and say, "Navigate to," and your destination.
4. **Messages**: Siri can send, read and reply to your text messages for you.
5. Tapping the **Volkswagen Logo** icon simply takes you to the Volkswagen native user interface with all the features and functions of Apple CarPlay still active.
   - To charge iPhone only, disconnect from Apple CarPlay by pressing the **Volkswagen Logo** icon, then select **Disconnect** on the touchscreen. This will allow Bluetooth® access while charging your iPhone.

*Always pay careful attention to the road, and do not drive while distracted. Not all features are available on all operating systems. Standard text and data usage rates apply. App-Connect features require a compatible device, operating system and mobile apps. See mobile device and app providers for terms and privacy.

Click here for further information on Apple CarPlay apps.

Wireless App-Connect Android Auto

To connect:

1. Pair your phone to the Volkswagens Infotainment system with Bluetooth.
2. Select **Use Android Auto** or select **Cancel** for Bluetooth connection.

Note: Please confirm all prompts from Android Auto on the mobile device for successful Android Auto connection.

▶ Watch the Android Auto Wireless Connection video.

Android Auto™

Use some of your favorite Android applications on the road through your Volkswagen's infotainment screen. You can talk to Google on Android Auto to get driving directions, send a text, or place a phone call, hands-free. Android Auto is made to help you focus on the road while having fun along the way.

1. Ensure you are running the latest Android™ OS on your device and download Android Auto from the Google Play Store. An active Google account and an internet connection is required. If you're using Android 10 or higher, the app is already on your phone.
2. Plug your Android phone into the USB port using a certified USB Cable.
3. Press the **App** key on the touchscreen.
4. Select **Android Auto** on the touchscreen. Ensure phone is unlocked OR pair your Android phone to your infotainment system's Bluetooth connection, then select "Use Android Auto" in the pop-up.
5. Select **OK** on the touchscreen for data transfer prompt.
6. Follow the instructions on your device to continue setup.
7. Android Auto will appear on the Infotainment touchscreen once all the prompts have been accepted on your device.

Google, Android, Google Play and Android Auto are trademarks of Google LLC. Click here for further information.

To use Android Auto on your car display, you'll need an Android phone running Android 6.0 or higher, an active data plan and the Android Auto app.

▶ Watch the Android Auto USB video.

Features

1. **Microphone**: Google Assistant can be activated with a long press of the **Microphone** icon on the touchscreen or by using touchscreen commands that work with available apps. Google Assistant can also be activated using your voice to easily send messages, get directions, control media and more. Just say, "Hey Google," long-press the **Voice Control** button 🎤 on the multi-function steering wheel, or tap the **Microphone** icon on the touchscreen to get started.
2. **Navigation**: Predictive navigation provides turn-by-turn directions, traffic conditions and estimated travel time. Android Auto can predict where you want to go next based on your calendar and recent destinations.
3. **Phone**: Listen and reply to text messages, make calls or check your voicemail.
4. **Home Screen**: Takes you back to the home screen of Android Auto.
5. **Music and Audio**: Use your touchscreen to access your favorite artists, songs and playlists. Android Auto lets you stream from apps such as Pandora, Spotify and iHeartRadio.

Tapping the Exit icon 🚗 simply takes you to the Volkswagen native user interface, then select **Disconnect** if you wish to completely disconnect from Android Auto.
⚠ **Warnings:** See **App-Connect** in your Infotainment System Booklet for more detailed information and for important safety warnings.

Tire Pressure Monitoring System (TPMS) Recalibration

The TPMS must be recalibrated each time the tire pressure in one or more tires has been adjusted or after one or more tires has been changed, exchanged or repaired. The new tire pressures are stored in the system after at least 20 minutes of normal driving. To recalibrate the TPMS:

1. Turn the ignition ON.
2. Press the **CAR** button on your touchscreen.
3. Select **Settings** on the touchscreen.
4. Select **Tire settings**.
5. Select **Set**.
6. Select **Confirm** to store.
Watch the TPMS video.

Keyless Access

Unlock

1. Make sure you have your key fob with you.
2. Slide hand behind driver or front passenger door handles and wait for the door to unlock. Remember to avoid touching the indent on the front of the handle or the door will remain locked.
3. By touching the unlocking sensor twice in a row, the entire vehicle will unlock.
4. Pull the handle to open door.

Hand placement is showing unlock position.

Lock

1. Make sure you have your key fob with you.
2. Touch your thumb to the lock depression on the handle.

Customize which Doors to Unlock with Keyless Access

1. Make sure the vehicle is parked. The vehicle will not allow you to customize Keyless Access while driving.
2. Select **CAR** from the Infotainment touchscreen.
3. Select **Settings.**
4. Select **Opening and closing settings**.
5. Select **Unlock doors** and select which doors to lock or unlock with keyless entry.
   - "All doors" unlocks all doors.
   - "Single Door" unlocks only the driver's door.
   - "Vehicle side" unlocks the door(s) on the side where the key is at the moment.
Watch the Keyless Access video.

Windshield Wipers and Washer

Intermittent

- From the **OFF** position, move the wiper stalk one click up to activate the intermittent wipers with rain-sensing.
- The switch on top of the stalk varies the time interval between each wipe.
- The farther the switch is moved to the right, the shorter the interval between each wipe will be.

Note: Ensure wiper stalk is in OFF position before entering a car wash.

Rain-Sensing Wipers

To activate and deactivate wipers within the Infotainment touchscreen:

1. Select **CAR**.
2. Select **Settings**.
3. Select **Mirror and wiper settings**.
4. Select **Automatic wiper during rain**. A check mark indicates it is active.

Note: Applies to vehicles equipped with rain sensors.

Continuous

- **LOW**: From the **OFF** position, move the wiper stalk up two clicks.
- **HIGH**: From the **OFF** position, move the wiper stalk up three clicks.

Rear Wiper

To operate, push the lever one click away from you. If you have the front wipers on and you put the car in reverse, the rear wiper activates a single wipe.

Service Position

With hood closed and ignition off, press and hold the windshield lever down. Wipers will move into the service position. Lift wipers by arm away from windshield. Before driving, fold wiper arms back onto the windshield. Turn ignition ON, and press the wiper lever down briefly. The wipers will move back to the park position.

Watch the Windshield Wipers video.

⚠ **Warnings:** See **TPMS, Keyless Access and Wipers** in your Owner's Manual for more detailed information and for important safety warnings.

TPMS / Keyless Access / Wipers

Warning and Indicator Lights

Failure to heed warning lights and instrument cluster text messages can cause the vehicle to break down in traffic and result in a collision and serious personal injury.

- Never ignore warning lights or text WARNINGS.
- Always stop the vehicle as soon as it is safe to do so.
- Park the vehicle at a safe distance from moving traffic and where no part of the hot catalytic converter and exhaust system can come into contact with flammable materials under the vehicle, such as dry grass, brush, spilled fuel, etc.
- A broken–down vehicle presents a high accident risk for itself and others. Switch on emergency flashers and set up a warning triangle to warn oncoming traffic.
- Before opening the engine hood, always switch off the engine and let the engine cool down.
- Always be very careful when working in the engine compartment, which is a potentially dangerous area in any motor vehicle and can cause serious personal injury.
