CONNECT TO YOUR DEVICE

## A) First time pairing:

1. Turn on keyboard's Bluetooth.

1.1. Press the ☐ Fn + ☐ C keys to turn on the Bluetooth.

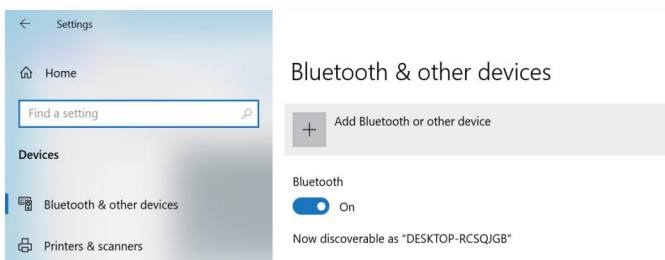

1.2.1. Keyboard will identify Bluetooth signal automatically for your 1st device.

1.2.2. For your 2nd device, press the ☐ Fn + ☐ C button to turn keyboard's Bluetooth on (the Bluetooth light will blink in blue)

**2.** Turn on your tablet's Bluetooth and connect;

2.1 On your tablet, go to Settings＞Devices＞Bluetooth & other devices;
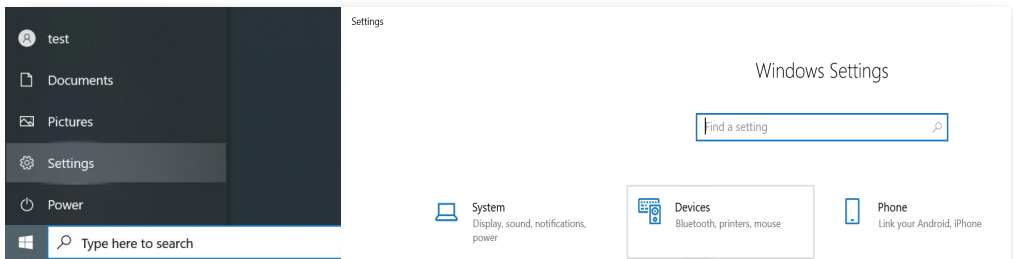

**2.2** Turn on the Bluetooth＞Add Bluetooth or other devices;

2.3 Choose "Bluetooth" under "Add a device", and tap "Keyboard 5.0" to pair, the pairing process is considered complete after the "Connected" indicator appears (see picture below).

B) Future pairings:

After successful first-time pairing, your tablet will automatically remember the keyboard. To connect again, please turn on Bluetooth on both tablet and keyboard. Device should automatically connect. If it does not, please tap it in Other devices list to establish connection.

TROUBLESHOOTING

Part.1

If the keyboard is not working correctly, please check the following:
1. The Bluetooth function on the tablet (or other Bluetooth devices) is enabled;
2. The Bluetooth keyboard is within 33 feet;
3. The Bluetooth keyboard is charged.

Part.2

1. Make sure the keyboard is turned on (the battery indicator is illuminated);
2. Ensure the keyboard is fully charged;
3. Make sure the Bluetooth in your device (eg tablet, iPad, table pc) is turned on;
4. Press the key "FN"+"C" and check the Bluetooth status;
5. Make sure a keyboard has already paired via Bluetooth.

If failed to connect with Bluetooth, please try the following steps:

- **Remove device on your tablet;**
- Switch off the Bluetooth function on your tablet;
- Reboot the tablet;
- Turn on the Bluetooth on your tablet;
- Switch the keyboard off and on;
- Repeat the steps described on page 1 and 2 to pair the keyboard;

- Transmit Range: up to 10m
- Battery Life: 100++ working hours
- Standby mode: up to 300 days

- Operating Voltage: 3.7V DC
- Operation current: < 5mA
- Standby current: 1.0mA
- Sleep current: < 0.1mA

FCC CAUTION

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

*RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
