6. Do not use this product to vacuum liquids, otherwise it may cause product damage.
7. Two mop pads must be installed at the same time when using the dual spin electric mop, otherwise it may damage the floor.

Overview

Main unit

Installation and use

1) Installing mop pads and adding water

With the furry side facing outward, align the mop pad center with the rotating plate center, then attach the mop pad to the rotating plate.

Open the rubber cap of the water tank (from left to right as shown in the figure).

Use a measuring cup to 240ml fill clean water into the water tank.

Caution

1. The cleaning performance will be reduced, if the mop pads are not correctly attached to the rotating plates.
2. Do not fill the water tank by putting it directly under the tap water.
3. Do not add other stuff in the water tank to prevent blocking the water tank.
4. Empty the water tank after cleaning the floor.
5. Do not add water at temperature exceeding 50 °C. Adding other liquids will cause damage to the inside of the product.

2) Adjusting the water output

Press the button to switch to Small Water Output mode, the "one water drop" icon on the left lights up. This mode is used to clean floors that cannot get severely wet or to reduce the water output amount.

Press the button again to switch to Large Water Output mode, the "two water drops" icon on the right lights up. This mode is used to clean stubborn stains or to increase the water output amount.

Press the button once again to switch to No Water (or Dry) mode, the water drop icons light off.

Caution

1. The water drop icon lights are Off by default when the product leaves the factory. Please adjust the water output amount by pressing the Water Output Adjusting button.
2. If the product may be stopped using for a long time, please switch the water drop icon lights to Off by pressing the Water Output Adjusting button to avoid malfunction.
3. Before moving the appliance or when you need to dry mop the floor, please switch the water drop icon lights to Off by pressing the Water Output Adjusting button.

Cleaning and maintenance

Manual cleaning

Wet the mop pad thoroughly and clean it.

Wring water out from the pad.

Insert the long cleaning brush into the dust inlet of the dual spin electric mop, then rotate the brush to remove the dust.

Caution

1. To dry mop the floor, just install the pad and start mopping, no need to wet it.
2. After cleaning the mop pads, be sure to thoroughly wring water out.
3. Do not use the long cleaning brush to clean items other than the dual spin electric mop.
4. Before using the long cleaning brush to clean the dual spin electric mop, make sure the appliance is turned off.
5. Keep the long cleaning brush dry. Do not wet the brush when using it to clean the dual spin electric mop.
6. After use, clean the long cleaning brush and dry it under the sun light, to prevent mold and odor.

Troubleshooting

When the dual spin electric mop cannot work normally, please troubleshoot by yourself or contact the customer service to help with troubleshooting

Error description	Cause	Solution
The dual spin electric mop does not spin.	Battery is too low.	Check if the vacuum cleaner has sufficient power. Recharge the battery fully before use.
No water sprayed from the water outlet.	The water outlet is blocked.	Clean the blocked water outlet, and check if there is water in the water tank.

Technical data

Product name	Dual spin electric mop	Product model	XCQXZDS01*
Rated operating voltage	28.8 V ^{***}	Rated power	30 W
Rated rotating speed	>200 r/min	Dimensions	ca. 290 x 78 x 295 mm
Net weight	ca. 1.25 kg	Water tank capacity	ca. 240 ml
Voltage of water pump	3 V ^{***}	Noise level	<70 dB(A)

*** symbol indicates the product color, e.g. B = black, W = white, G = gray, P = purple.

Warranty and limitations of liability

This product is guaranteed for a period of 12 months (defined by local law) from the date of purchase against any failure resulting from manufacturing or material defects.

This warranty does not cover damage caused by improper installation, improper use, or normal wear and tear of the product.

More specifically, the warranty does not cover:

- Damage or problems caused by improper use, accident, alteration or electrical connection of improper intensity or voltage.
- Modified products, those whose warranty seal or serial number have been damaged, altered, removed or oxidized.
- Failure of the battery due to overcharging or failure to observe the safety instructions explained in the instruction manual.
- Cosmetic damage, including scratches, dents, or any other element.
- Damage caused by any intervention carried out by an unauthorised person.
- Defects caused by normal wear and tear or due to normal ageing of the product.
- Software updates due to a change in network settings.
- Product failures due to the use of third party software to modify, change or adapt the existing software.
- Product failures caused by use without accessories approved by the manufacturer.
- Oxidised products.

Terms and conditions of implementation:

To obtain a warranty service, you are requested to return your product to the customer service desk of your retail outlet with your proof of purchase (receipt, invoice, ...), the product and its supplied accessories, with its original packaging.

It is important to have the date of purchase, the model and the serial or IMEI number on hand as information (this information usually appears on the product, the packaging or your proof of purchase).

Failing this, you must return the product with the accessories necessary for its proper operation (power supply, adaptor, etc.).

In the event that your claim is covered by the warranty, the after-sales service may, within the limits of local law, either:

- Repair or replace defective parts.
- Exchange the returned product with a product that has at least the same functionality and that is equivalent in terms of performance.
- Refund the product at the purchase price of the product mentioned on the proof of purchase.

If one of these 3 solutions is used, this does not give rise to the extension or renewal of the warranty period.
