Product Overview & Functions

Charging the Speaker

- The speaker has an internal rechargeable battery.
- The battery must be charged prior to use.
- Charging time is approximately 4-5 hours.
- When charging the power indicator will light-up red.
- When the speaker is fully charged the indicator light will turn off.
- To charge the speaker plug the micro USB cable into the micro USB port and the other end into a USB power source.
- Note: When the speaker detects that the built-in battery voltage is low it will emit a low power alarm. When the battery level is critically low it will automatically shut down.

Pairing Devices to the Speaker

- Make sure that the Bluetooth function is available on your device.
- Specific pairing procedures will differ depending on device.
- Turn on the speaker by turning the volume control knob.
- Keep the distance between the cell phone and the speaker within 3 feet for pairing only.

Pairing Devices to the Speaker (Cont.)

- Activate the Bluetooth function on your device and search for available devices.
- Select “Okko - SuperBass,” from devices list and follow prompts to finish the pairing process.
- After successful pairing a tone will sound.

NOTE: AFTER SUCCESSFUL PAIRING, DEVICES WILL REMEMBER EACH OTHER. NO PAIRING WILL BE NEEDED NEXT TIME.

How to Play Music using the TF/Micro SD cards

TF/SD Card Mode

- When the speaker detects a Micro SD card it will automatically enter card mode.
- Simply load your MicroSD card with your favorite music, insert it in the MicroSD card slot and the music will start playing.
- The display shows the playback time and pause symbol when paused.

How to Play Music using AUX Mode and FM Mode

Aux Mode

- When connecting a device via the AUX jack, the speaker will automatically detect it and enter **AUX** mode.
- An AUX input plug allows you to listen to music/audio AUX jack and connect the other to a phone or computer.
- Plug one end of the 3.5mm audio cable into the speaker AUX jack and connect the other to a phone or computer.
- Press the **PLAY/PAUSE** to listen or pause music.

FM Mode

- Press the mode button to switch to FM mode.
- The FM frequency range is from 87.5 MHz -108.0MHz.
- Press and hold the **PLAY/PAUSE** button to automatically search for stations.
- The speaker has an internal antenna you don't need an external one.

Controlling the Speaker Lights

- Press and hold the mode/light button to turn the speaker lights **ON/OFF**.

Troubleshooting

- The music will not play from Micro SD card**

Make sure the music is in MP3 format and that the SD card is formatted prior to use.

- Can't turn the speaker on**
Check if the battery charge level is low.

- There is poor FM reception**
Try moving the unit to another location.

- Can't see the USB, TF, AUX mode on display**
USB, TF and Aux mode are only displayed when there is a USB, TF or AUX inserted.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
