

Adjustable Keyboard Bench Seat with Backrest

MS1089

ASSEMBLY TIME:

DRUMMERS:     

EVERYONE ELSE:     

- 1 Use the Small Allen Wrench (A9) to screw legs into the Seat (A4). The holes for the braces should be facing inward while the holes for the knobs should be facing the same direction.

- 2 Use the Small Allen Wrench (A9) to screw the Braces (A5) into the Seat (A4) and into the Legs (A2). Screw the Backrest Connection (B4) into the Seat (A3) as well.

- 3 Attach the Crossbeam (A3) with the Big Allen Screws (A8) by using the Big Allen Wrench (A9). Make sure it is tight and secure on both ends.

- 4 Insert the Base (A1) into each Leg (A2). The holes for the knobs on the legs and the holes on the base must line up on the same side.

- 5 Screw the Adjustable Pull-knob (A6) into each leg to secure the Base (A1). The Pull-knobs (A6) are spring-loaded so you can adjust the height of the Base (A1) by pulling the knob.

- 6** The rubber feet that cover the end of the Base (A1) can be rotated to eliminate wobble that occurs on uneven surfaces.

- 7** Assemble items B1, B2 and B3 Secure the Backrest (B1) with Allen Screws (A7), and the T-shape Telescoping Bar (B3) with the Adjustable Pull-knob (A6).
