PRICE GUIDE

Effective May 1, 1988

PENTAX®

Dear Pentax Dealer:

Pentax Corporation has recently finished our 1987 fiscal year - and thanks to you, many long standing sales records were broken. The support we received from our dealer network was outstanding and most appreciated. Many thanks!

As we begin a new year, we would like to reinforce our pledge to provide you with the best products, promotions and service ever. During 1988 you may be assured that you will be hearing about more exciting developments from Pentax.

This Pentax Price Guide is effective on May 1, 1988. You will note that it has been necessary to increase prices on most products, due to the continuing instability of the yen/dollar relationship. This is an unfortunate situation, but one we must all recognize and structure our business practices accordingly.

Please feel free to contact your sales representative or regional office anytime they may be of assistance to you.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Joe H. Graham', with a long horizontal flourish extending to the right.

Joe H. Graham
Vice President, Sales and Marketing

YELLOW PAGES PROGRAM

The Yellow Pages is the one reliable source of information always available when customers are "ready to buy". In today's competitive market, advertising in the Yellow Pages is a must.

Here's how it works:

We want to insure that only authorized dealers like yourself list in the Yellow Pages under the Pentax name. The only way an authorized dealer can participate in this national program is through Nellson-Woodward, Inc. the Yellow Page advertising agency for Pentax.

The Pentax Corporation has arranged to insert the Trade Name ad, illustrated at the right, to appear in this directory under the classification of "Photographic Equipment and Supplies—Retail."

PENTAX SERVICE INFORMATION

(Pentax Photographic and Video Products Only)

Pentax Corporation owns and operates five service centers throughout the United States. These centers offer full-line servicing on all Pentax photographic products. Video products are serviced at all **except** our Norcross, GA service center.

Normal repair time is ten working days after receipt of a product covered by warranty, or after receipt of approval on a chargeable product repair. Of course, this may vary slightly due to volume.

Repair of Products Under Warranty

Products sent to Pentax for repair which are covered under a warranty must be accompanied by the owner's dated proof of purchase (sales receipt, cancelled check, or charge slip).

Repair of Products Out of Warranty

Out of warranty products sent to Pentax for repair are examined by our service technicians. The cost of repairs (parts and labor) to bring the equipment back to factory specifications is estimated. This estimate/quotation is sent to the individual/dealer requesting the work along with a request for authorization to proceed. No work will be done until written authorization is returned. (No telephone approvals can be accepted.) We also require full payment for the repairs accompany the authorization. The only exception is those having an open account with Pentax. In this case, after receipt of authorization repair charges will appear on the next statement from Pentax.

Repair Warranty

All Pentax photographic equipment repair work is covered by a warranty on material and workmanship for six months from the date of repair. Should the equipment malfunction during this six-month period, please return it to the service center which originally repaired the equipment along with the Factory Service Order. This type of situation is handled on a high priority basis. The reverse side of the Factory Service Order explains the terms of the repair warranty.

PLEASE NOTE: Video product repair warranties are for 90 days.
