

#### **KEY FEATURES**

- Superior Image Quality (Starlight Sensor, Smart IR II Technology, 4K Video Viewing Experience and high frame rate are supported for an excellent image quality.)
- ▶ Evidence Camera Linkage (Link with any regular cameras to capture the overview snapshots as evidence.)
- ▶ LPR Smart Search (Relevant videos can be found quickly by searching for only a portion of the target suspect vehicle's features, such as vehicle type & color, plate color, plate number, direction and etc.)
- Traffic Flow Statistics (The vehicle counting result based on vehicle type, vehicle make and various vehicle features can be shown intuitively in camera's live view and the camera can also generate useful report insights to aid in improved decision-making.)

#### **Traffic Violation Detection**

Al-based road traffic cameras accurately detect and alert violation events such as No-plate Vehicle Detection, Specific Lane Detection, Reverse Driving Detection, Black/White List Detection and Vehicle Event Detection based on recognized vehicle features.

### Intelligent Al-powered LPR Algorithm

The Al Road Traffic Pro Bullet Plus Camera can not only recognize vehicle plates in real time, but also identify more vehicle features, like vehicle type, color, etc., generating reliable traffic insights to improve safety and mobility.

#### **Traffic Flow Statistics**

Traffic flow statistics greatly enhance traffic management capabilities. The vehicle counting result based on vehicle type, vehicle make and various vehicle features can be shown intuitively in camera's live view and the camera can also generate useful report insights to aid in improved decision-making.

#### **Easy Deployment and Compact Structure**

To enhance visual clarity, the AI Road Traffic Pro Bullet Plus Camera features 4X/12X autofocus lens with corresponding algorithms. And the well-designed integrated junction box and versatile interfaces ensure installation efficiency.

	Name	TS4466-X4RIPG1 (4MP)	TS5366-X12RIPG1 (5MP)
