

POWERHOUSE RESEARCH SCHOLARS PROGRAM

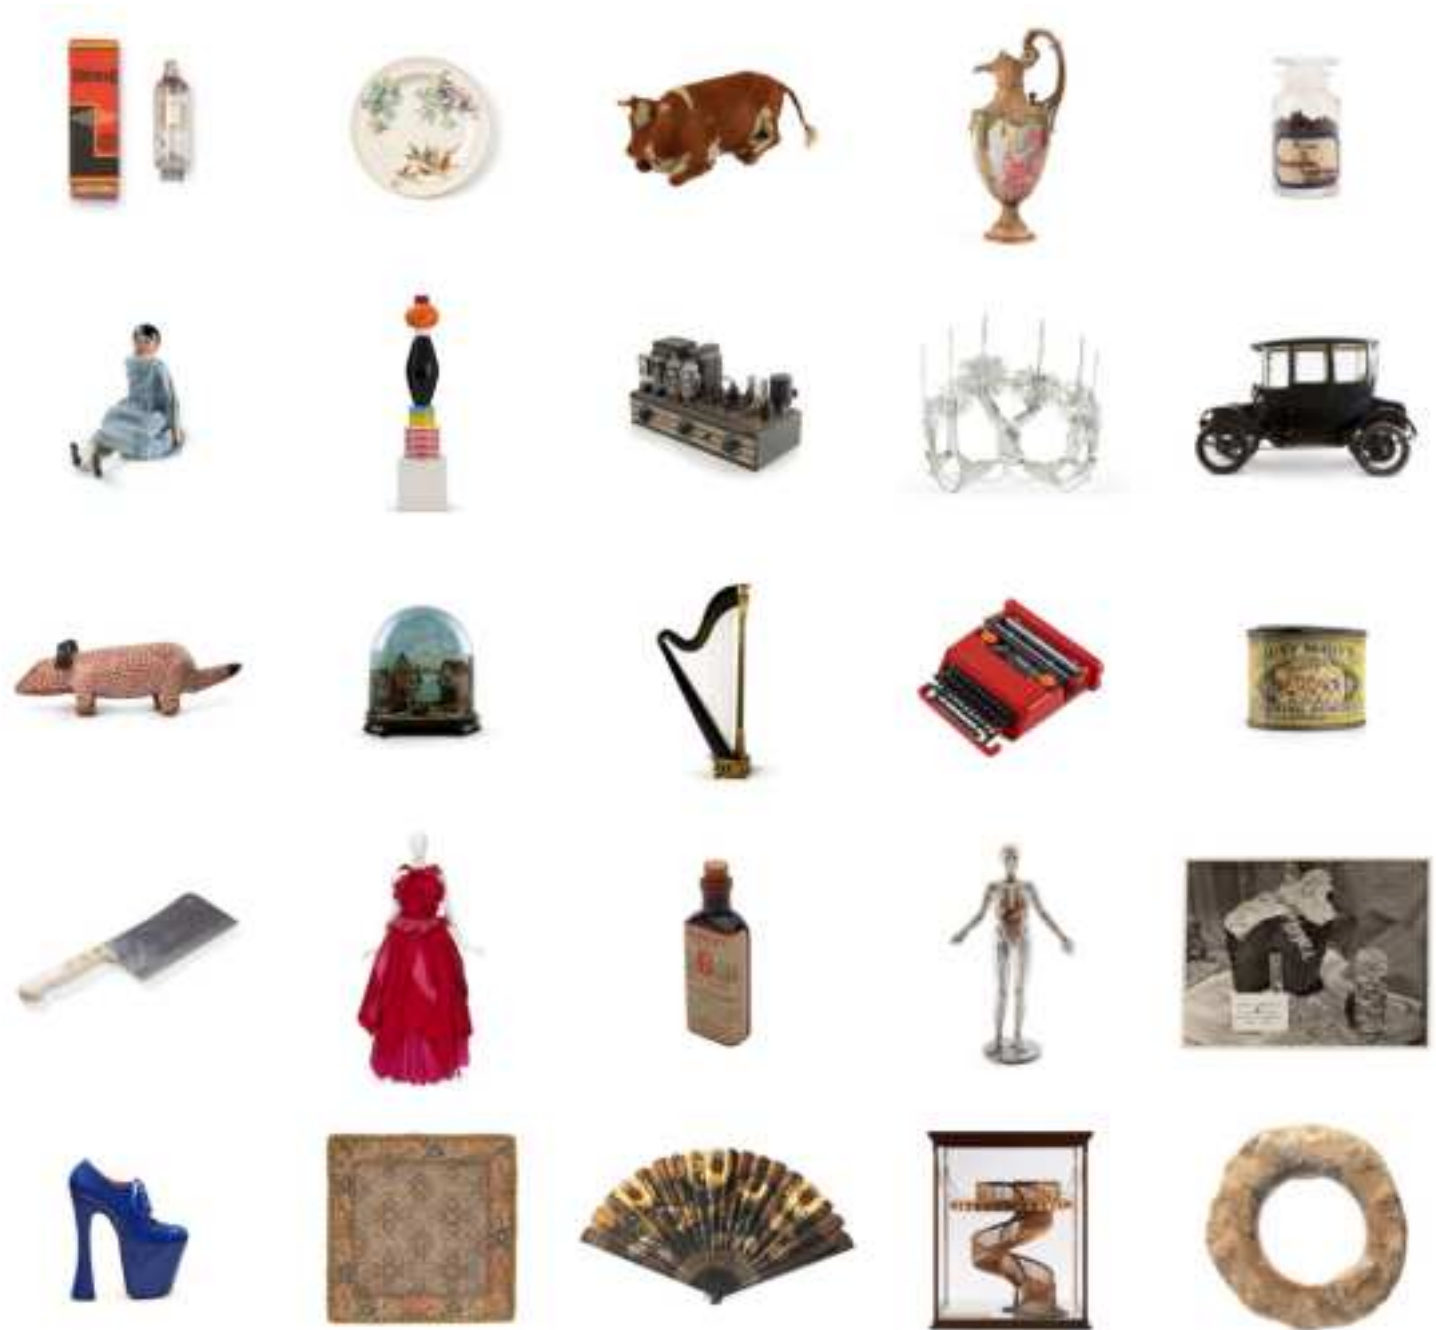

POWERHOUSE

Powerhouse is the largest museum group in Australia. It sits at the intersection of the arts, design, science and technology, and plays a critical role in engaging communities with contemporary ideas and issues. Powerhouse is undertaking significant renewal through the creation of Powerhouse Parramatta, the digitisation of the Powerhouse Collection and the revitalisation of Powerhouse Ultimo.

Powerhouse Collection

The Powerhouse Collection includes more than half a million objects of national and international significance and is considered one of the finest and most diverse collections in Australia. Collecting areas include:

- Agriculture and Food
- Architecture and the Built Environment
- Asian Arts and Culture
- Biotechnologies
- Computing and Digital Technologies
- Decorative Arts and Design
- Designing with Country
- Energy
- Engineering
- Fashion and Dress
- First Nations Fashion
- First Nations Astronomy
- Health, Medicine and Wellbeing
- Mathematics and Measurement
- Media and Communication Technologies
- Music, Sound and Performance
- Photography
- Physical Sciences
- Product and Digital Design
- Social History
- Space and Astronomy
- Transport
- Visual Communication

OPPORTUNITY

The Powerhouse Research Scholars Program provides a supportive environment to undertake research related to the museum's collection, or areas of professional museum practice such as education, curation and conservation. The scholars program enables researchers to access Powerhouse resources to support their research over a 12-month period from March 2026 to March 2027. Scholars will initiate and develop collaborative research in interaction with Powerhouse staff.

Research scholars are expected to make a tangible contribution to the museum through participation in the annual Powerhouse Research Scholars Symposium held in March each year. Additional contributions can include presentations at staff meetings, involvement in public programs and exhibitions (venue dependent), amendments to object documentation, publications (written, film, audio) and performance works, or other contributions as agreed upon.

In-kind support and resources

Scholars will be provided with online and in-person access to:

- The Powerhouse Collection, via current exhibitions or through a supervised exploration of the Collection in storage at Powerhouse Castle Hill
- The Powerhouse Research Library and the Powerhouse Archives
- Staff expertise across research, curatorial, conservation, education, programs, digital and media as required
- A workspace in the Research Scholars Room, Ultimo
- Access to the EMu database (the Powerhouse collection management system)
- Participation in the annual Powerhouse Research Scholars Symposium
- Additional potential speaking or profile opportunities in Powerhouse programs, website or other publications

Remuneration

Powerhouse provides a fee of \$5000 to fund material or travel expenses.

Applicants from outside Australia will need to arrange their own visa, however Powerhouse may assist by providing written documentation about your research commitment.

ELIGIBILITY

The Research Scholars program is an open platform designed to support a broad range of disciplines and research approaches. We encourage applications from all sectors, including academic and independent research, as well as established creative practice-based research, which engage with the Powerhouse Collection areas of art, design, science and technology. Please see page 2 for subject examples represented within the Powerhouse Collection.

Powerhouse advocates for research involving First Nations knowledges and cultural material, both tangible and intangible, to be led by relevant First Nations community members and involve First Nations communities and academics in decision-making processes, knowledge sharing and outcomes.

If you have a disability that requires adjustment to the application process or an alternative application pathway, please contact research@powerhouse.com.au.
