## **2. CONTENTS**

- 1 x Ice shaver
- 1 x Stainless Steel bowl
- 1 x User Manual

## **3. SPECIFICATION**

Power supply	110V- 60HZ
Rated power/Max locked power	200W
Net weight	17.64lbs/8kg
Product dimension(L×W×H)	17.7x10.6x12.2inches/450x270x310mm
Continuous running time	≤30 min
The diameter of the bowl	7.9inches/201mm
The depth of the bowl	2.7inches/70mm
Shaving/Crushing capacity	220LB(100kg) per hour
Rotation Speed	1400runs/min
Materials	Stainless steel; Iron
Certification	CE

#### **4. Operating instructions**

- 1) Check if the power supply voltage is the same as the voltage shown on the label, and connect the power outlet to the ground line.
- 2) Turn on the switch, Open the cover of ice crusher, and put in some ice in the right amounts, then cover it (Note: quantity of the ice cubes should not exceed the ice crushing barrel level).
- 3) Then press down the ice pressing handle to make the protective switch automatically turned on and crush the ice.
- 4) After finishing, please raise the ice crushing handle to the upper stop again and repeat the above mentioned operation process if you need.
- 5) We recommend that you use ice with the diameter 4-5cm.

*<NOTE>When using, the outlet of the ice cannot be jammed, otherwise the cutter head may get stuck and the motor may be burnt out. If the above mentioned conditions appear, please cut off the power and raise the handle immediately, find out the reasons.*

#### **5. CLEANING**

- ▲ Turn off the power switch and pull plugs.
- ▲ Please clean the water in the hopper after using.
- ▲ Please only use cloth scrub the hopper, but not water cleaning.
- ▲ Do not touch the blade when cleaning to avoid scratching your fingers.
- ▲ Place the machine in the dry place.

*<NOTE>The machine can not be cleaned by detergents, avoiding the corrosion of chemical substances to machine. It also can not be directly washed with water, with avoidance any damage to electrical components as well as machine.*

#### **6. IMPORTANT SAFETY INSTRUCTIONS**

- ▲ Children are forbidden to use this machine. Regardless of any circumstance, do not touch the steel plate when working.
- ▲ You must use a ground socket; Keep cable away from the heat; do not connect the cable and electrical sockets to water or other liquids;
- ▲ Do not use the damaged cables, power plugs and sockets.
- ▲ To be put on a flat place, the ice should be put into evenly; otherwise it would cause the fuselage vibration.
- ▲ Do not arbitrarily dismantle motor, when cleaning or repairing

machine, you should first turn off the power switch and pull plugs, can not keep the machine running empty.

▲ Continuous running of the machine should be not more than 15 minutes with the following 10 minutes interval for motor cooling.

▲ Do not shave fruits and vegetables.

▲ After use, there would be a little ice left in the hopper. This is normal.

▲ To avoid jamming, do not force to operate the unit with excessive pressure.

## **7. Recipes**

### **1) Mung bean flavor**

We should boiling the mung bean with right amount of sugar water, Stew with warm fire until the mung bean began to Crisp rotten, Turn off the fire. And then stir the mung beans with condensed milk which you can buy from supermarkets.

*<NOTE> a few soup of red bean will make it better in color when shaving ice and beans together.*

### **2) Peanut flavor**

Fire the peanuts with oil to crisp, this will increase the sweetness of peanuts, Wrap the peanuts with paper or towels inside to suck the oil. put the cooked peanuts into the plastic bag, crusher it with a rolling pin. Put the smoothies into the bowl and sprinkle with peanuts.

*<NOTE>In order to increase the viscosity of the ingredients, you can also add a few spoonful of peanut butter before stirring.*

### **3) Fruit flavor**

Fruit flavored ice has no special methods, fruit like: pineapple, mango, watermelon, banana, kiwi ... ... you can just simply cut it into small pieces, mix some condensed milk and sugar on it.

*<NOTE>If you want to save money, you can also mix kiwi with concentrated kiwi fruit juice.*
