SETUP INSTRUCTIONS

- 1 Remove keyboard, receiver/adapter assembly, and USB cable from carrying case.

- 2 Insert the LIGHTSPEED receiver, with extender and cable into the PC USB port. Receiver can be used without the extender and cable by inserting it directly into a USB port if desired.

- 3 Turn on the keyboard by sliding the power button. The LIGHTSPEED button will light up to a cyan color.

- 4 Download and install G HUB software to your PC/MAC for the best gaming experience (G HUB has onboarding story for features). Go to **logitechG.com/ghub**

logitechG.com/ghub

BLUETOOTH® CONNECTIVITY

1 Turn on the keyboard by sliding the button.

2 Press *Bluetooth*® button to select *Bluetooth*®. If there is no *Bluetooth*® device paired, the light will flash quickly - waiting to pair.

Follow *Bluetooth*® connection for your device to pair with the keyboard.

CHARGING YOUR KEYBOARD

- 1 Insert the *USB-C* cable into the port at the front of the keyboard.
- 2 Connect the cable to your PC.

Battery indicator light will pulse green while charging and be solid green when fully charged.

Media Controls

PRO X TKL includes media controls. Skip back, play/pause, skip forward and mute key, with a volume roller that controls your device volume.

Game Mode

Pressing the Game mode button blocks the Windows and Context Menu keys when pressed. Additional keys can be blocked using G HUB software.

Game Mode Lock (FN+Game Mode), locks the Game Mode button and prevents Game Mode from being turned on or off.

Brightness

Adjust lighting brightness by pressing the brightness button.

ONBOARD LIGHTING EFFECTS

The keyboard has 8 different lighting effects stored in its onboard memory. You can select and modify these by pressing the Brightness button and these keys:

Brightness + 1 = Rainbow > right

Brightness + 2 = Rainbow > left

Brightness + 3 = Rainbow center out

Brightness + 4 = Rainbow ^ up

Brightness + 5 = Color cycle

Brightness + 6 = Keystroke ripple

Brightness + 7 = Breathing cyan

Brightness + 8 = Custom lighting effect

Brightness + 9 = Custom lighting effect

Brightness + 0 = Solid cyan

Brightness + - = Animation slower

Brightness + = = Animation faster

G HUB lighting controls will override these settings.

SWITCH BETWEEN LIGHTSPEED WIRELESS AND *BLUETOOTH*® DEVICES

Once connected, press the LIGHTSPEED button to choose the LIGHTSPEED connection, or the *Bluetooth*® button to choose the *Bluetooth*® connection, if you would like to type on different connected devices.

INSTRUCTIONS D'INSTALLATION

- 1 Sortez le clavier, l'assemblage récepteur/adaptateur et le câble USB de l'étui de transport.

- 2 Insérez le récepteur LIGHTSPEED, avec la rallonge et le câble dans le port USB du PC. Le récepteur peut être utilisé sans la rallonge et le câble en l'insérant directement dans un port USB si vous le souhaitez.

- 3 Allumez le clavier en faisant glisser le bouton d'alimentation. Le bouton LIGHTSPEED s'allumera en cyan.

- 4 Téléchargez et installez le logiciel G HUB sur votre PC/MAC pour une expérience de jeu optimale (G HUB propose un parcours d'intégration pour les fonctionnalités). Accédez à **logitechG.com/ghub**
