Portable air conditioners

POWER

Immediate coolness

With a large cooling capacity of up to 14000 BTU and 3500 frigories, it is easy to achieve the desired room temperature quickly and efficiently. Its large coverage area makes it possible to adapt and modify room temperature to the desired degrees.

WI-FI CONTROL

Unleash freshness with your smartphone

You can configure the device as desired from your smartphone via Wi-Fi connection, no matter where you are.

5 IN 1

Always there to suit your needs

The air conditioner allows each function to be tailored to user needs and preferences with up to 5 operating modes: Fan, Cool, Heat, Dehumidification, and Night.

LED DISPLAY

Easy control for maximum comfort

The LED display shows all possible settings and always indicates the ones being used, allowing for an easier control of the air conditioner.

Discover the range: Portable air conditioners

ForceClima 7050

3-in-1 portable air conditioner, 1800 frigories (7000 BTU).

FEATURES:

- 3-in-1 ClimaCare: Conditioning, fan and dehumidification function.
- Plug&Play portable: Easy-to-use portable air conditioner with the highest performances. Produces an instant optimal conditioning of your house.
- 1800 frigories: cooling capacity to cool rooms of up to 20 squared meters (7000 BTU).
- AirFlow 300: great air flow of up to 300 m³/h to refrigerate rooms in the fastest and more uniform way.
- SleepMode: Especially designed for relaxing moments and night hours.
- 2 Speed Function: 2 operating speeds to adjust intensity to your needs.
- Timer 24 h: 24-hour programmable. Set it at a specific time and enjoy the best climate at home.
- WindowKit: Includes an easy-to-assemble accessory to adapt the air outlet to the window and avoid energy loss.
- Waterfull indicator: water indicator that lets you know when the tank is full, ensuring a proper product maintenance.
- EnergySave Pro: Energy efficiency class A (EER). 50 % less consumption than a conventional air conditioner. Maximum performance with minimum energy consumption.
- SaveWater System: Technology that reuses and self-evaporates water to improve efficiency, saves energy and avoids having to charge the device.
- Smart Control: Control your home's climate with its smart remote control. User-friendly thanks to its many functions and possibilities that adapt to you.
- Easy to move: Includes handles and multidirectional wheels for an easy transport.
- Elegant Design: Compact and elegant design that suits any room and turns into a decorative element at home.
- EasyClean: Easy to clean and maintain, allows easy access to the filters for its periodic cleaning.
- This product contains R410A refrigerant gas that complies with environmental regulation set out in the Kyoto Protocol.

COMPOSITION:

- Air conditioner
- Remote control

ForceClima 7350 Touch Smart

Portable air conditioning, 7000 BTU.

FEATURES:

- Portable air conditioner with great cooling capacity of 7000 BTU. Thanks to its cooling capacity, it is capable of reaching the desired temperature fast and effectively.
- Its top touch control panel allows controlling its modes and functions simple and easily.
- It has remote control on order for you to comfortably control the device from anywhere in your house.
- Its large coverage area of 15 m² makes it possible to adapt and modify the temperature of the room to the desired degrees.
- The LED display shows all possible settings and indicates the ones being used at every moment, allowing for an easier control of the air conditioner.
- The air conditioner has 4 different operating modes: Fan, Cool, Dehumidification and Night.
- Its 2 speed settings allow adapting its operation to different moments and situations. Choose between Low and High.
- With its Dehumidification mode it is capable of absorbing a maximum of 20L/day, resulting in a much healthier atmosphere.
- The timer can be set up to 24 hours. Set the desired operating time and the device will automatically turn off.
- The air conditioners uses R-290 gas, which is Eco-friendly.
- Its 790 W allows the air conditioner to cover a 15-m² and to reach the desired temperature in a short period of time.
- The air conditioner has a water drainage tube that helps keep it running at every moment.
- The air filter is capable of stopping the larger particles in the air, improving air quality.
- Its 360° multi-directional wheels and its handle allow carrying and moving it from room to room easy and effortlessly.
- Includes window assembly kit.

Discover the range: Split air conditioners

INVERTER SYSTEM
SISTEMA INVERTER

3000 FRIG
12000 BTU

Air conditioner with great cooling capacity.

Summer and winter use thanks to its heat pump.

Dehumidification 29L/day.

Device control from your smartphone.*

LED

Display that shows the selected settings.

Convenient remote control.

5
MODES

5 Modes: Auto / Cool / Fan / Heat / Dehumidification.

8

8 speeds for maximum comfort.

* EnergySilence 12000 AirClima Connected

EnergySilence 12000 AirClima

Split air conditioning 12000 BTU with heat pump, remote control and LED display.

FEATURES:

- Split air conditioner with great cooling capacity, 12000 BTU, equivalent to 3000 frigories. Thanks to its cooling capacity, it is capable of reaching the desired temperature fast and effectively.
- The air conditioner's heat pump allows using it during winter to heat rooms.
- Inverter system, which maximises the air conditioning's compressor efficiency as it adjusts its operating to a steady speed and temperature, increasing its lifespan.
- The LED display shows all possible settings and indicates the ones being used at every moment, allowing for an easier control of the air conditioner.
- It has remote control on order for you to comfortably control the device from anywhere in your house.
- Its 5 operating modes (automatic, cooling, fan, heating and dehumidification) allow adapting it to every moment and season of the year.
- Its 8 air conditioning speeds offer maximum comfort, allowing you to select the desired speed according to the moment and your needs.
- You can also choose between its 3 operating options: Night (minimum noise), Eco (minimum consumption) and Auto-cleaning.
- With its dehumidification mode it is capable of absorbing up to 29L/day, resulting in a much healthier atmosphere.
- Adapt and set the desired degrees in order to enjoy the perfect temperature throughout its 25-m² coverage area.
- Its great air flow rate of 650 m³/h generates a great cold or hot air flow for you to enjoy the perfect temperature at home.
- The timer can be set up to 24 hours. Set the desired operating time and the device will automatically turn off.
- The air conditioning has a removable and washable air filter, which prevents the great majority of dust particles from being released back to the environment.
- The R-32 gas increases effectiveness and the cooling/heating power. It is also environmentally friendly.
- The DC motor offers maximum air conditioning efficiency as it auto-regulates speed according to the settings selected.
- The air conditioning features a moving and oscillating flap that allows selecting the direction in which air is released.
- The lock function is a safety feature which avoids setting from being accidentally changed and protects it from being used by children.
- The automatic re-start function ensures the air conditioning will continue operating with the previously selected settings after a power cut.
- The emergency function allows setting the cooling or heating mode in case the remote control is lost.
- The LED display on/off function allows the user selecting whether the display wants to be activated or not.
