Dials — — Code window

(Figure 1)

Button

(Figure 2)

How to set a password
The factory opening password of the lock
is 0-0-0-0, if the user needs to reset
the password,
The steps are as follows:
1. Adjust the dials so that the number in
 the code window is displayed as the
initia.
0-0-0-0-0; (Figure 1)
2. Press and hold the button (Figure 2)
with your hand; Turn the dials to select
the number in the code window, which is
the code you need. (please
remember)
3. Release the button, the new password
is set successfully.
