TROUBLE-SHOOTING

Summon A Cool
Breeze Into Your
Space

Why there is noise

Why the wind power is not strong enough

Why the remote control is not working

Why the oscillation is not steady

It is normal that there is noise during high speed, lower the speed and check again.

- Move the fan closer.
- Ensure air inlet and outlet are unobstructed, and no obstacles before the fan.
- Make sure the fan is connected to a powered electrical outlet.
- Check that the remote control is powered and move the obstacles between the fan and the remote.
- Operate the remote control near or in front of the tower fan.

Check that the base is firmly assembled and the fan is on a level ground.
