Tapo Brand Profile

Tapo's journey is driven by a simple belief: that technology should enhance lives and empower individuals to embrace the future. Aimed at offering users an exceptional smart life experience, Tapo provides easy-to-use smart living products and comprehensive whole-home solutions, including smart security, cleaning, lighting, automation, and the user-friendly Tapo app. This extensive selection ensures that consumers can find the perfect solutions to meet their specific needs and preferences.

Tapo remains steadfast in its commitment to being "Smart, Secure, and Easy." The brand continuously refines and expands its product line, incorporating the latest technological advancements while prioritizing user experience.

Experience the seamless integration of technology with Tapo as your trusted companion on the journey towards a smarter, more connected future.

Tapo Whole-Home Solution

Unleash the full potential of your smart home with Tapo smart home devices. In the intelligent appliances market, Tapo boasts a diverse product line: smart homebases, doorbells, door locks, cameras, robot vacuums, lights, switches, plugs & outlets, and sensors. The smart home devices upgrade your home with security and comfort, freeing you from daily chores. They work seamlessly with one another, creating a unified smart home with automation and customization.

Smart HomeBases

Smart Home Center

Tapo will launch a new Smart HomeBase for centralized management of all smart devices, boosting convenience, security, and compatibility. Effortlessly control all smart devices with one HomeBase. Supporting protocols like Matter and ONVIF, HomeBase connects seamlessly with various smart devices, reducing the need for multiple hubs. Plus, it offers extensive, secure local storage for home camera footage, without incurring any monthly fees. Equipped with an advanced CPU, it empowers your cameras with pro-level AI functions. Experience smarter, simpler living with this innovative HomeBase.

All Smart Devices in One HomeBase

Smart HomeBase

Tapo H500

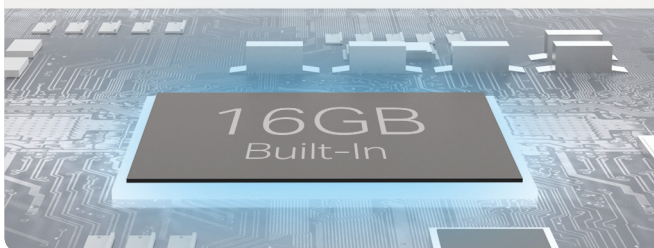

Local Storage, No Monthly Fees

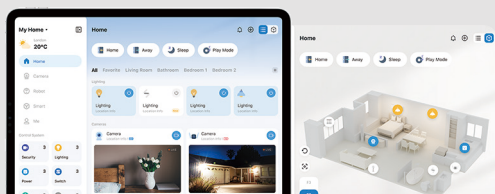

Tapo H500 is the perfect local storage solution for multiple cameras. It comes with a 16GB eMMC, expandable up to 16 TB via an extra 2.5-inch HDD/SSD drive, delivering massive, secure local storage that can hold up to 1,100 days of video. [†]

Expandable up to

16 TB

Paired with Pad to View Everything

Enhanced Smart AI Detection

Provides multiple free enhanced AI functions such as facial recognition, person & pet & vehicle detection, and more. Effectively filters invalid alerts from non-human and non-vehicle sources.

Smart Home Ecosystem Center

Smart HomeBases

Tapo H900 Smart HomeBase

-  Included 10.1" Ultra HD Screen
-  Expandable Local Storage
-  Pro-Level AI Detection
-  Thread Border Router
-  110dB Adjustable Siren

Tapo H500 Smart HomeBase

-  Expandable Local Storage
-  Enhanced AI Detection
-  110dB Adjustable Siren
-  Multilayer Encryption

- **Smart Home Center:** Connects up to 16 cameras and 64 sensors to build your own smart home ecosystem.
- **Easy to Use without Wiring:** Connect your smart devices to the HomeBase via Wi-Fi (2.4GHz & 5GHz) without the hassle of complex wiring. Ethernet networking is also supported, giving you flexible connection options.
- **Matter-Compatible:** Add more Matter-certified products into your Tapo smart home ecosystem for seamless integration.
- **ONVIF Ensures Compatibility:** Easily add IPCs from Tapo and other brands to establish a powerful and varied network thanks to barrier-free compatibility.*

Smart Hubs

Tapo H200 Smart Hub

-  Wi-Fi / Ethernet + Sub-1 GHz
-  Up to 4 Cams + 64 Sensors
-  90dB Adjustable Siren

- **Wrong-Try Protection:** Locks out and alerts you after multiple failed entry attempts for secure access.

Manage & Monitor from Anywhere

Advanced Wi-Fi connectivity and the user-friendly Tapo app allows you to manage your door lock and monitor your front door from anywhere in the world.

Smart Cameras

Guarding You Night and Day

Tapo home security cameras offer diverse and reliable products to satisfy different security needs. The ColorPro series captures vibrant colors in ultra-low light without extra lighting, providing daytime-like clarity. The 4K series presents images with superior clarity, ensuring details and recording precious moments. Enjoy the flexibility of battery-powered cameras and the comprehensive view of our 360° pan/tilt models. With the Tapo app, receive instant notifications and watch live views to keep an eye on what's important, wherever you are.

ColorPro Night Vision

Experience Daylight Clarity at Night

Tapo developed ColorPro to address the unclear nighttime imagery prevalent in traditional security cameras. This innovation captures vibrant colors in ultra-low light without extra lighting, providing daytime-like clarity. It's crucial for accurately identifying details like faces and license plates, even in pitch-dark conditions.

F1.0 Super-Aperture

Allows as much light as possible to pass through the lens and hit the sensor.

1/1.79" Large Image Sensor

Harnesses more light, records more details, and reduces noise, all to deliver cleaner, higher-quality footage.

Captures

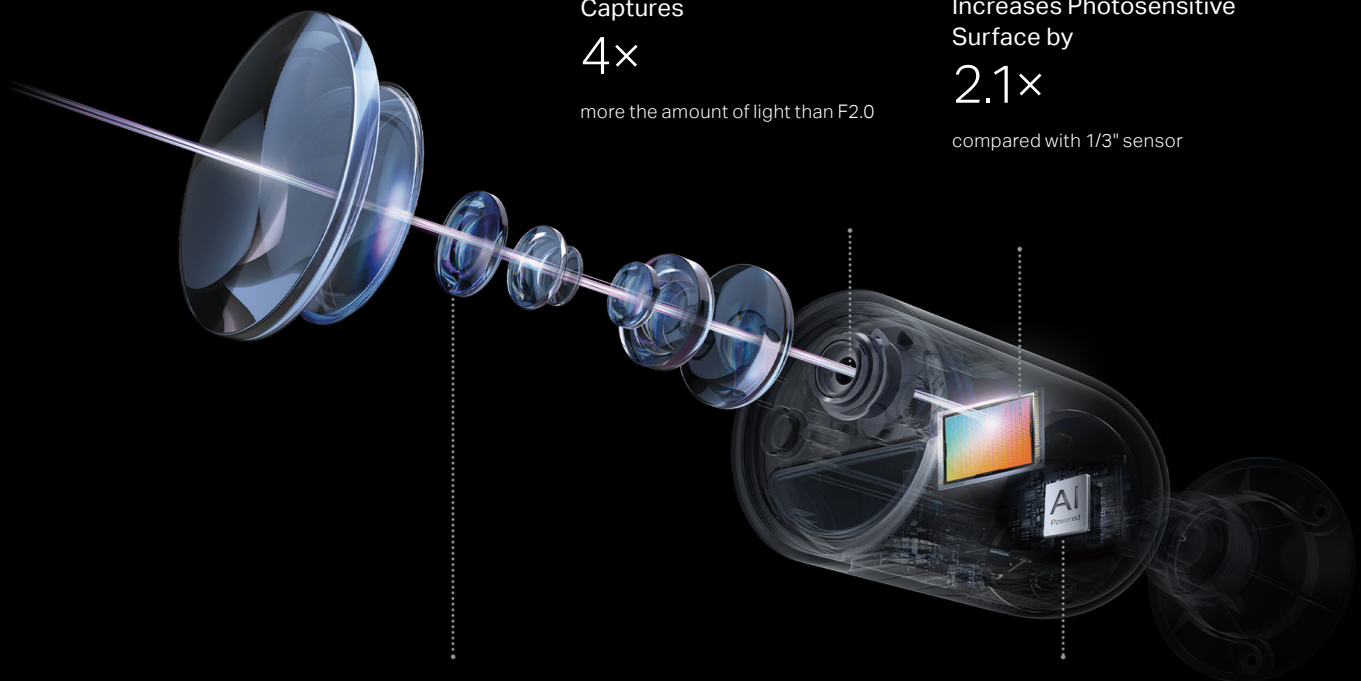

4×

more the amount of light than F2.0

Increases Photosensitive Surface by

2.1×

compared with 1/3" sensor

Cutting-Edge Lens Technology

Utilizing advanced aspherical technology with double the lens count, Tapo significantly improves aberration correction and reduces temperature effects. Multicoated lenses ensure optimal light entry while substantially minimizing inter-lens ghosting.

AI-Powered Chipset: Leading Extraordinary Vision

ColorPro integrates AI technology into the image processing pipeline. Embedding deep learning algorithms, training on diverse application scenarios, and leveraging powerful computation, ColorPro delivers superior photo and video results.

*Different products and versions have different sensors and lens, please refer to the actual products.

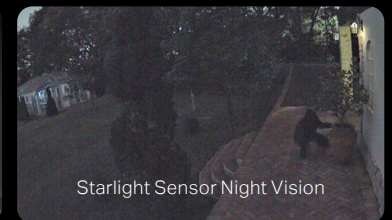

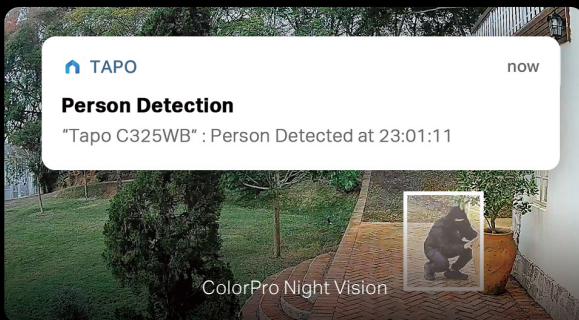

Incredible Natural Colors in the Dark

Floodlights limit colors to a small selection, and IR sensors only produce black-and-white images. With ColorPro, you can see pictures that are closer to their natural colors during the day.

No Dark Corners, No Blind Spots

See objects and subjects like never before. ColorPro technology provides superior brightness throughout the entire frame to ensure that nothing, or no one, is missed.

Amazingly Detailed, Even in the Dark

Washed out or dull images prevent the visibility of finer details. With ColorPro, pictures are much clearer and more natural, providing better clarity.

Free from Distracting Lights

ColorPro captures vivid, full-color images without floodlights, reducing false alarms from light-attracted insects, conserving energy, and protecting the environment. Enjoy undisturbed peace and maintain good neighbor relations with clear visuals free from light pollution.

Beyond Clear with Tapo 4K Resolution

Accurate Detection

Tapo 4K cameras deliver clearer images, enhancing AI detection accuracy. Get notifications on the Tapo app for what truly matters.

Enhanced Security

4K cameras record license plates, people's faces, and more, providing you with more information of what's happening.

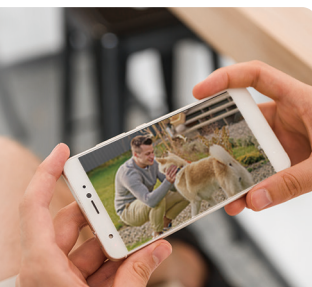

Record with High Quality

4K cameras capture every precious moment of your kids and pets in stunning clarity. Never miss a moment around your home.

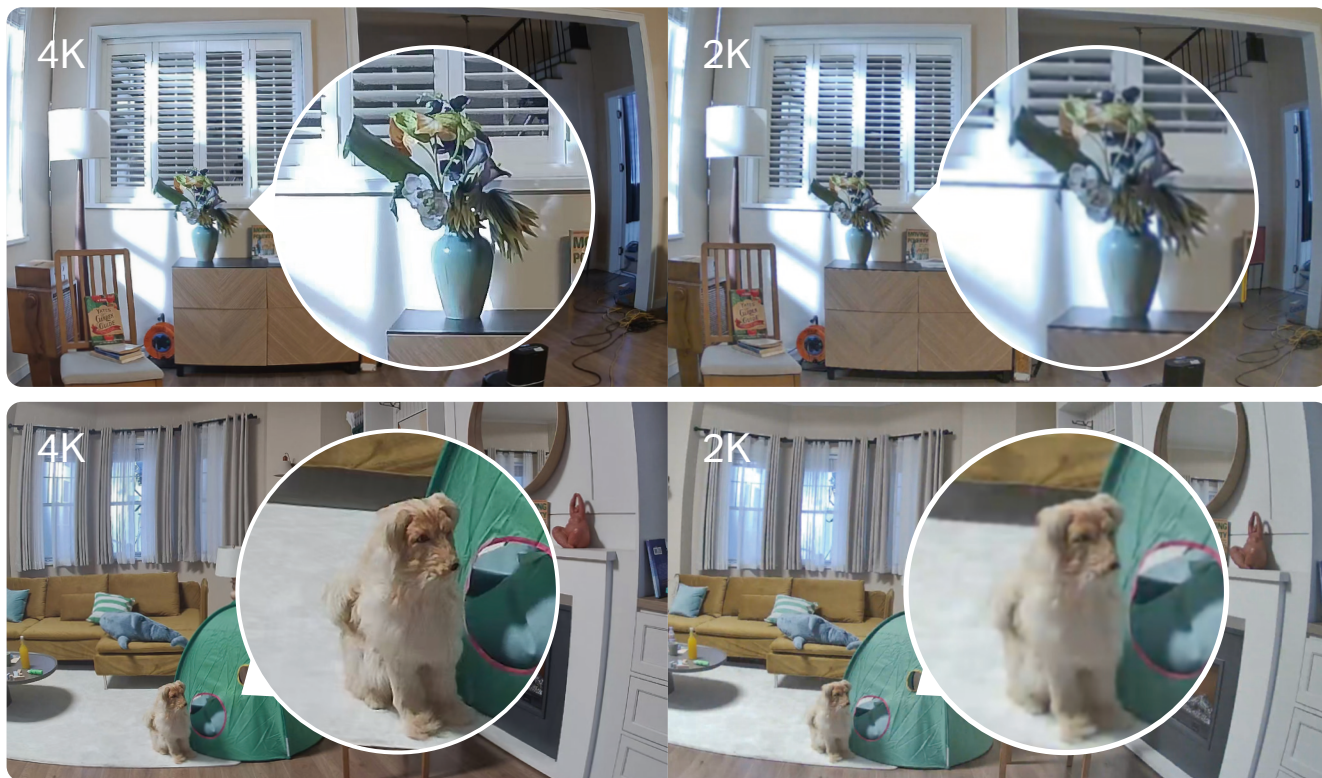

No Fear of Zooming In

With 3840×2160 pixels, Tapo 4K cameras offer 4 times the number of pixels as 1080p (1920×1080 px). The picture remains clear even when you zoom in.

Tapo 4K Camera Live Views

Tapo's 4K cameras go beyond standard 4K offerings, with upgraded lens, processors, and sensor components that work in tandem to deliver the ultimate color accuracy and clarity, ensuring the full potential of 4K video.

Why Choose the Tapo Security Camera System?

Leveled-Up Security, All-in-One System

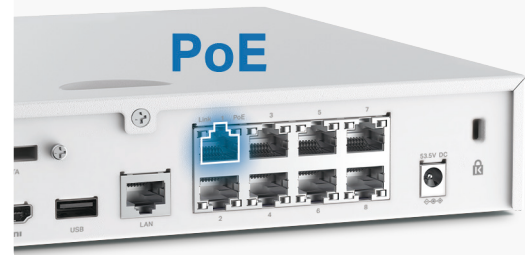

24/7 Continuous Recording, All Stored Locally

Ensure constant security with 24/7 high-resolution recording. Every moment is captured in detail, so you never miss a critical event. All footage is stored safely on-site, keeping your data secure and easily accessible.

PoE Connection: Simplify, Streamline, Stabilize

PoE connections offer effortless plug-and-play setup.

AI-Powered On-Device Analysis, Enhanced Protection

Tapo NVR's AI analysis identifies people, vehicles, and pets, and can recognize faces to distinguish between family, friends, and strangers. Receive targeted alerts and real-time alarms for precise, proactive protection.

Local & Remote Access

The NVR system can operate independently of your internet, avoiding bandwidth sharing and Wi-Fi issues. Control locally via a monitor or HD TV. For remote access, connect to the internet and use the Tapo app or web browser for seamless operation.

1. Product models, appearance, and specifications may change without notice.
2. Face recognition function will be available after over-the-air update.

2-in-1 Double the View, Complete Protection.

360° Surveillance with Dual 4K Lenses

Tapo C6165D uses a fixed lens and a pan/tilt lens, both with 4K resolution, ensuring clear visibility of all details. It covers different areas simultaneously, perfect for large outdoor spaces like yards, ponds, and farms, eliminating blind spots.

Wide and Telephoto: Comprehensive Coverage and Detailed Focus

The short lens offers a wide field of view, ensuring comprehensive coverage. The long lens, with its extended focal length, captures distant details with clarity. This perfect combination ensures you have control over both the big picture and the finer details.

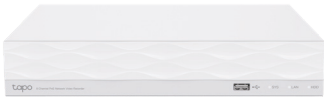

1. Product models, appearance, and specifications may change without notice.

Tapo Network Video Recorder

The NVR is the core of the Security Camera System, recording and storing all camera footage with seamless PoE integration. It ensures continuous high-resolution recording, secure local storage, on-device AI detection, and easy playback, providing reliable and efficient security management.

Tapo NVR810P 8-Channel Network Video Recorder

- **Cameras Supported:** Up to 8 Cams (8 Channels)
- **Recorded Resolution:** 4K 8MP
- **Decoding Capability:** 16MP
- **Storage:** 1× SATA Interface up to 16TB + 1× eSATA Interface up to 16TB¹
- **PoE Interface:** 8× PoE Ports
- **Video Interface:** 1× HDMI, 1× VGA
- **Video Compression:** H.265+/H.265/H.264
- **Local and Remote Access**
- **Video Playback & Backup**

Tapo Network PoE Security Cameras

Tailor your protection with a range of advanced PoE cameras and our 4K NVR, ensuring unmatched reliability and comprehensive coverage.

Robot Vacuums Simplify Your Smart Home

Vacuum smarter. Mop simpler. Tapo Robot Vacuums free you from mundane, thankless chores, giving you more quality time to enjoy life.

Experience the Ultimate Fully Automated Cleaning

AI Detection Robot Vacuum & Mop + All-in-One Self-circulating Station

Tapo RV70 Pro Ultra

All-in-One Self-circulating Station

Self-Sterilizing

Advanced ozone technology effectively neutralizes unpleasant odors, ensuring a consistently fresh and pleasant cleaning experience.

Self-Washing & Drying

Washes the mop with 60°C hot water to dissolve stubborn stains. Dries the mop with 45°C warm air to prevent bacteria and odors.

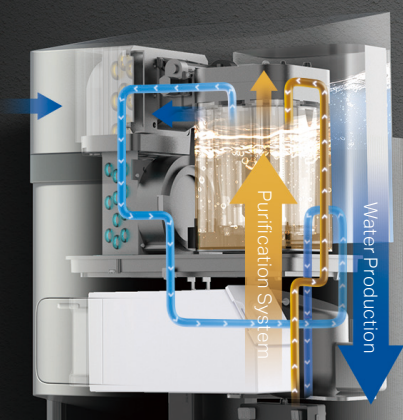

Self-Discharging & Refilling

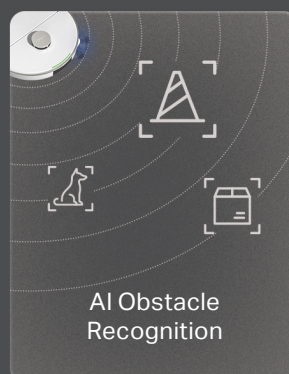

Discharges sewage and refills the station water tank with clean water, and automatically adding floor cleaning fluid.

Water Production & Purification System

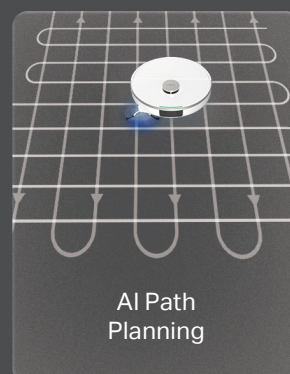

Water is drawn from the air to replenish fresh supplies. Mop-washing effluent is recycled and purified for reuse.

Advanced Dual-AI Technology

AI Obstacle Recognition

AI Path Planning

Dual-Disk Mechanical Arm Mop and Corner Brush

The corner brush and dual mop with mechanical arms extend flexibly and perfectly match to effortlessly clean dust, debris, and stains from corners with a single sweep.

Perfect Ultrasonic Carpet Cleaning

Anti-hair Entanglement

Automatically cuts through hair and fur and sucks them into the dust bag. Say goodbye to annoying tangled hairs.

Professional Series

Tapo RV70 Pro Ultra AI Detection Robot Vacuum & Mop + All-in-One Self-circulating Station

- 15000Pa Superb Suction
- Dual-Disk Mechanical Arm Mopping and Corner Brush
- Self-Shredding
- Ultrasonic Carpet Cleaning
- AI Obstacle Recognition
- Water Production & Purification System
- Automatic Floor Cleaning Fluid Dispenser

Tapo RV50 Omni Robot Vacuum & Mop + All-in-One Station

- 10000Pa Superb Suction
- Self-Shredding
- Ultrasonic Carpet Cleaning
- AI Obstacle Recognition
- Automatic Floor Cleaning Fluid Dispenser

- Structured Light Obstacle Avoidance:** Millimeter-level precise obstacle avoidance, reducing collisions with low objects, making mopping and vacuuming faster and smoother.
- Auto-Charging:** Returns to the charging dock automatically when the battery gets low, and then restarts right where it left off.
- Carpet Auto-Boost:** Increases the suction power when moving from a hard floor to a carpet.
- Anti-Drop Protection:** Uses drop-sensing technology to avoid falling down stairs and ledges.
- Eco-Friendly Antibacterial Dust Bag:** Traps 99% of particles as small as 0.3 microns, while inhibiting bacterial growth and preventing odors, ensuring allergens stay securely contained.
- Voice & Remote Control:** Simply send voice commands via smart speakers or control via the Tapo app.
- Real-time Voice Reporting:** Keeps you informed about the robot's current status.

Dust-Free, Stress-Free

Ultra-Powerful 5300Pa
Robot Vacuum and Mop

Tapo RV30 Max Plus

Hyper Suction, Thorough Clean

Easily sweeps away debris sandwiched between gaps and dust hidden in carpets, leaving nothing but a spotless floor.

5300 Pa

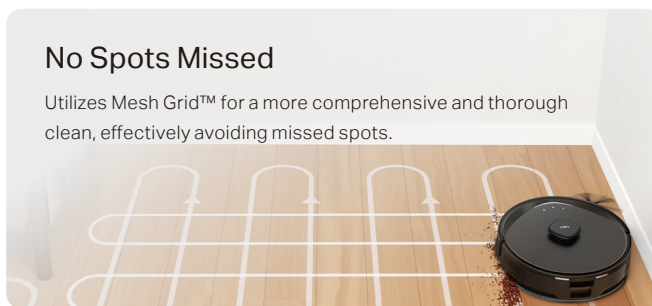

Better Dust Removal Efficiency[†]

No Spots Missed

Utilizes Mesh Grid™ for a more comprehensive and thorough clean, effectively avoiding missed spots.

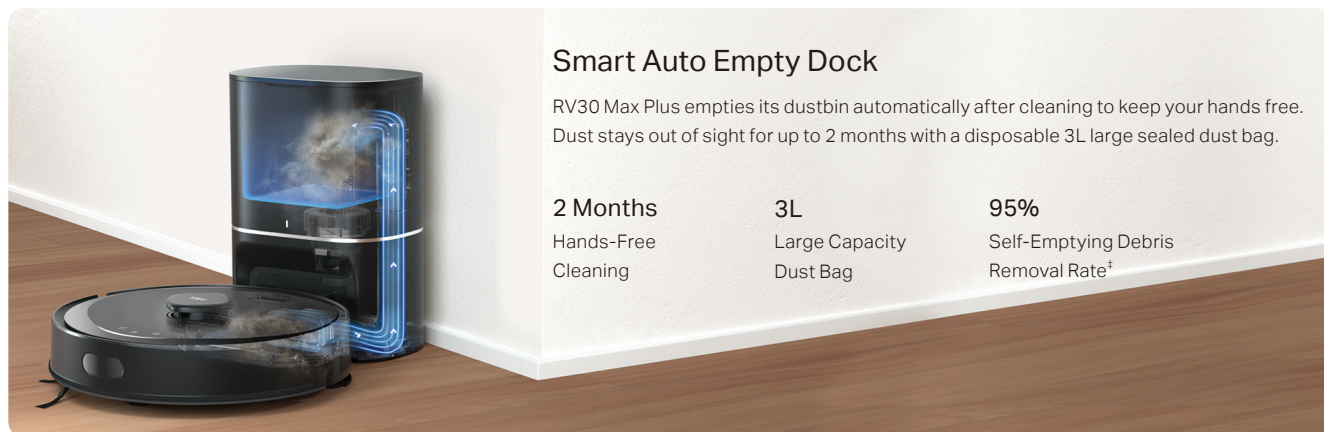

Tapo IQ+ Smart Cleaning™

- 15-min Fast Smart Mapping[†]
- Self-Planning Cleaning Routes
- Smart Obstacle Avoidance
- Furniture-Focused Cleaning
- Anti-Drop Protection
- Smart Recharge and Resume

[†]Based on internal testing by Tapo Lab. Actual results are subject to change due to usage and environmental factors.

^{††}Testing is conducted by Tapo Lab using Tapo RV30 Max Plus compared to Tapo RV30 Plus on hard floors. Actual results may vary according to the house environment.

Smart Auto Empty Dock

RV30 Max Plus empties its dustbin automatically after cleaning to keep your hands free. Dust stays out of sight for up to 2 months with a disposable 3L large sealed dust bag.

-  3-Hour Continuous Cleaning
-  Customizable Cleaning
-  Auto-Charging

- **Customizable Cleaning:** Merge and separate areas, set cleaning schedules, and customize cleaning modes for each room.
- **Anti-Drop Protection:** Uses drop-sensing technology to avoid falling down stairs and ledges.
- **A Blessing for Allergy Sufferers:** Keeps allergens locked up with a HEPA filtration system which captures 99% of particles as small as 0.3 microns.
- **Quiet Cleaning:** Triple noise suppression lowers noise levels down to 52 dB while in use, quieter than a running microwave.
- **Voice & Remote Control:** Simply send voice commands via smart speakers or control via the Tapo app.
- **Real-time Voice Reporting:** Keeps you informed about the robot's current status.
- **Simple Control via Tapo App:** Tailor scheduling and switch cleaning modes at home or away.

[†]Based on internal testing by Tapo Lab. Actual results are subject to change due to usage and environmental factors.

[‡]3D house mapping requires updating to the latest Tapo app on tablet devices.

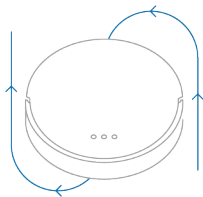

MagSlim LiDAR Navigation

What is MagSlim LiDAR Navigation?

MagSlim LiDAR Navigation adopts the mini-dToF LiDAR sensor and sinks it into the front of a robot vacuum for navigation and mapping. It not only continues with high-precision mapping and navigation but also bypasses the height limitation of traditional LiDAR. This enables the robot to access beneath lower cabinets and beds to clean harder-to-reach areas.

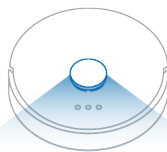

How Does MagSlim LiDAR Navigation Differ from Others?

Gyroscope Navigation

Gyroscope sensors detect the motion and rotation of the robots.

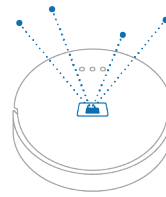

- ✓ Efficient path planning
- ✗ Lower accuracy

Traditional LiDAR Navigation

LiDAR scans the house with a spinning laser on top of the robot.

- ✓ Precise mapping
- ✗ Increased product height

VSLAM Navigation

Obtains more data by simulating human vision for navigation.

- ✓ Visual mapping
- ✗ Lower accuracy

MagSlim LiDAR Navigation

Newly designed Mini-dToF LiDAR is sunk into the interior of the robot to map and navigate.

- ✓ Precise mapping
- ✓ Ultra-Slim

What MagSlim LiDAR Navigation Offers

Max Suction, Slim Design

MagSlim LiDAR Navigation Robot Vacuum & Mop

Insightful Energy Tracking

The smart plug reads data frequently, providing comprehensive insights into your home appliances' power consumption with intuitive and straightforward data visualizations.

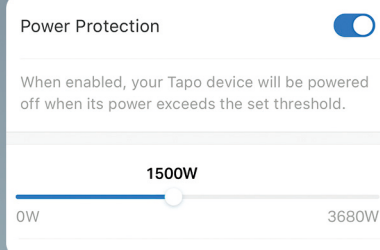

Real-Time: 100W

Past 7 Days: 0.2kWh

Improved Power Safety

Your connected device will automatically shut off when the power exceeds the set threshold, protecting your household's safety.

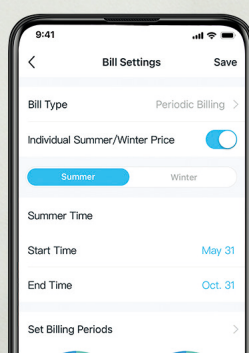

Anti-Overcharging

When your phone is fully charged, the current is automatically switched off, preventing overcharging and extending its battery life.

Turn Off

Estimate Your Energy Bill

Set your electricity rate to estimate energy bills. Use Tapo smart plugs to automatically turn on your power-hungry devices during off-peak periods to lower energy bills.

Power Station 10:00 AM

Designed for Solar Power Monitoring

Mini Smart Wi-Fi Plug, Energy Monitoring

Tapo P115M

Energy Generation & Tracking

Perfectly suited for balcony power stations, Tapo P115M automatically detects current direction, giving you enhanced control over energy data and helping you save on electricity. It also offers detailed visualizations of electricity usage, billing information, and power protection.

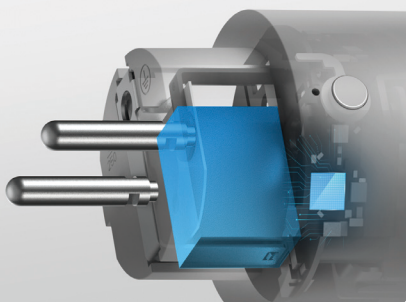

Matter-Certified

Integrate Matter-certified Tapo devices with other Matter end products into your preferred ecosystem.

Zero-Crossing Detection

Addresses relay contact welding, a key cause in smart plug failures, enhancing reliability and load capacity.

Voice Control

Use simple voice commands with Siri®, Alexa, or Google Assistant without leaving your spot.

Remote Control

Instantly turn connected devices on/off wherever you are via the Tapo app.

Schedule

Auto-Off Timer

Away Mode

Mini Smart Wi-Fi Plug

Voice Control

Works with certain voice assistants for hands-free control without leaving your spot.

Schedule

Schedule your connected devices to turn on/off according to your daily routine.

Remote Control

Turn connected devices on/off wherever you are via the Tapo app.

Auto-Off Timer

Automatically cut off power to connected heaters after a set time, saving energy and reducing fire risks.

Smart Lighting System

Make Every Space Shine

Tapo's Smart Lighting is devoted entirely to delivering vast and varied offerings.

Fill your smart home with exuberant lighting.

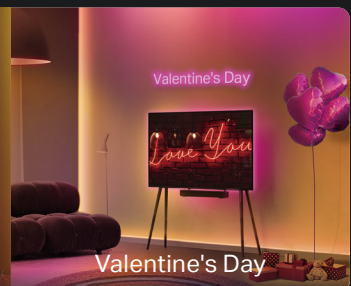

One Tap to Activate Immersive Lighting Vibes

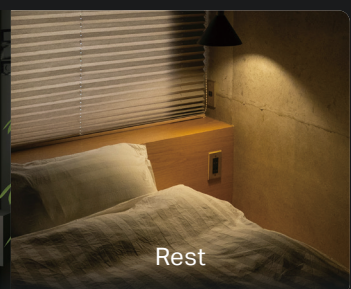

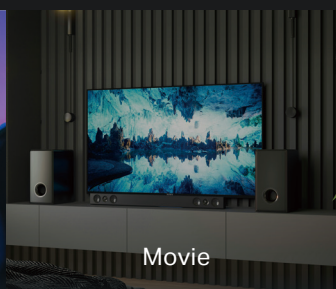

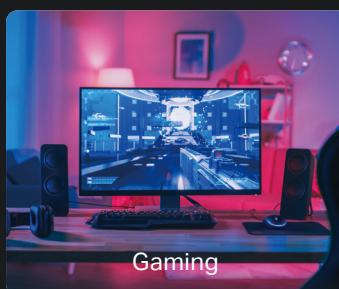

Lighting Effects

Discover the endless fun and possibilities of Tapo Smart Lighting. From festive themes like Halloween and Christmas to everyday moods like Sleep, Gaming, and Movies, the Tapo app lets you choose from 70 dynamic effects with a single click. Transform your space and create the perfect atmosphere with ease. Experience the ultimate freedom and enjoyment of smart lighting today!

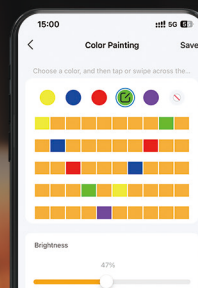

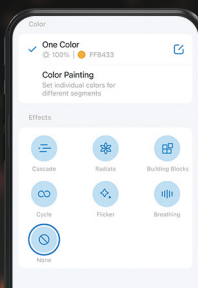

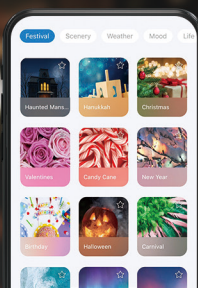

Festival Vibes

Daily Life Vibes

All-in-One App

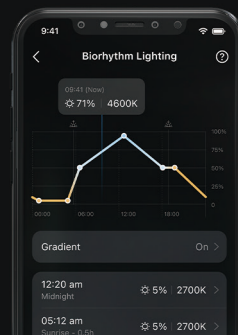

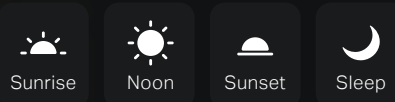

The Perfect Lighting for Your Well-Being

Auto Biorhythm Lighting

Auto Biorhythm Lighting for Your Daily Routine

Experience tailored illumination for every moment of your day with our Natural Lighting. It mimics the path of the sun in your geographic location, seamlessly adjusting brightness and color temperature to your daily preferences.

Eyesight Protecting

Protects vision by reducing harmful blue light and increasing soothing green and red light, which alleviates eye fatigue.

Better Moods

Simulates sunlight to regulate dopamine and other substances in the body, positively influencing mood and emotions.

Restful Sleep

Regulates melatonin production by mimicking changes in natural light, thus improving sleep quality.

Higher Working Efficiency

Using brighter, cooler-toned lighting during work hours stimulates the visual system, enhancing alertness and focus.

A True Seamless Smart Lighting System

Atom-Link Lighting System

Dual Connection for
Stable Operation

Convenient Control at
Your Fingertips

Highly Consistent
Lighting Control

Fast Batch Setup

No Hub Required

What is the Atom-Link Lighting System?

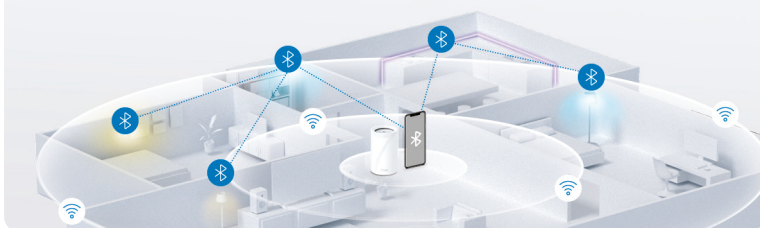

The Tapo Atom-Link Smart Lighting System provides reliable lighting control over Wi-Fi and Bluetooth Mesh dual networks to ensure consistent, fast performance. Bluetooth Mesh group control enables consistent management of all devices in the group, including Tapo downlights, bulbs, and mate switches, even if only one device is connected to Wi-Fi.

What Are the Benefits?

Dual-Protocol Connectivity for Stable Operation

Combines Wi-Fi and Bluetooth Mesh 1.1 technology to ensure smart lights remain responsive and connected even in areas with weak or no Wi-Fi signal.

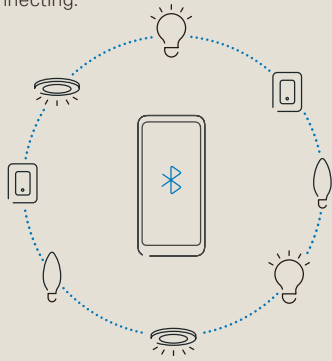

Convenient Control via the Mate Switch

The Tapo Mate Switch simplifies manual control of smart lights, removing the need to search for your smartphone or use voice commands. It's designed for user-friendliness, making it accessible for everyone, from children to seniors.

Unique Commissioning Mode

Quickly configure multiple devices simultaneously. No need to reconfigure devices even if Wi-Fi conditions change, like password updates, network disruptions, or reconnecting.

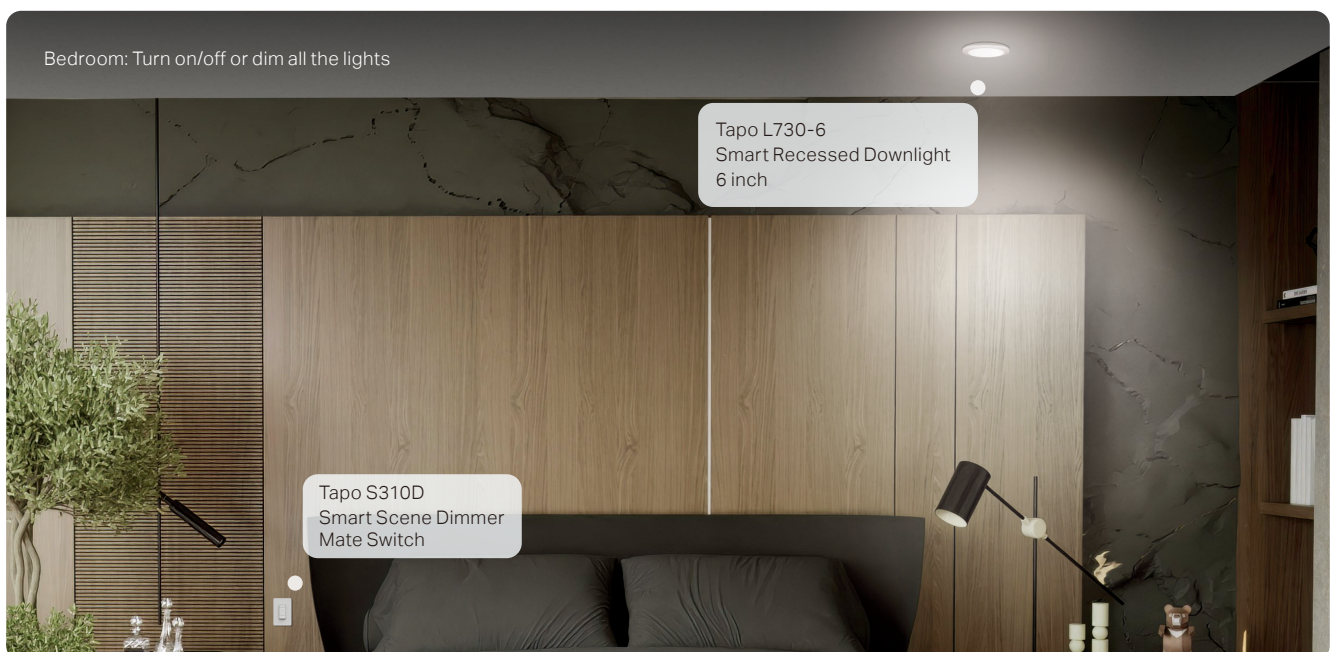

Highly Consistent Lighting Control

Uses the mesh protocol to simultaneously switch, dim, and adjust multiple lights, ensuring a unified lighting ambience with synchronous and smooth transitions.

Scenarios of Use and Related Products

Illuminate Your Space. Elevate Your Mood.

- **High-Accuracy Sensor:** The built-in Swiss-made sensor features a typical accuracy of $\pm 3\%RH$, $\pm 0.3^{\circ}C$ / $0.54^{\circ}F$.
- **Free Data Storage & Export:** Generate summaries of recorded temperature and humidity data that covers the most recent two-year period.
- **Long-Lasting Performance:** 2-year battery life provides long-lasting convenience.*
- **App Notification Alerts:** Receive instant alerts on your phone whenever levels fall outside your preset ranges.
- **Home Automation:** Automatically turns on/off appliances connected to Tapo smart devices, maximizing comfort and saving energy.
- **Flexible Placement:** Tapo T315 with its 2.7-inch E-link display can be placed anywhere, even in bright conditions. Hang Tapo T310 with a lanyard or secure it with adhesives/magnets.
- **Hub Required:** The Tapo Hub is required to support smart features, like remote monitoring, home automation, data exports, and more.

Note: The Tapo Hub is required to work with third-party platforms. Actual user experience with third-party platforms will vary by time, platform, etc.

*Battery life is based on TP-Link's laboratory results. Actual battery life may vary.

24/7 Drip & Leak Alerts

Smart Water Leak Sensor

Tapo T300

Tapo Hub
Required

Around-the-Clock Alerts

Equipped with six high-sensitivity sensors, the Tapo Smart Water Leak Sensor instantly alerts you to water leakage, making it ideal for bathrooms and laundry rooms where water damage is a concern.

90dB

Audible Alarm

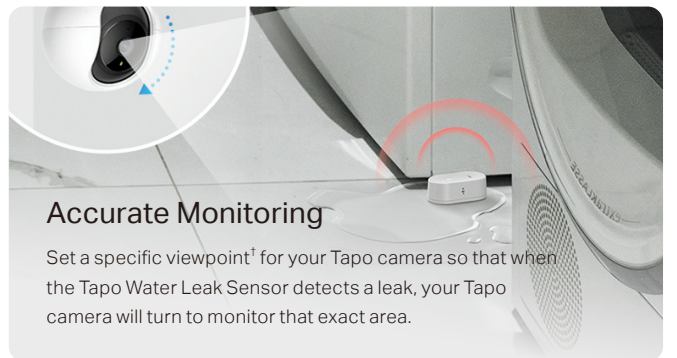

Visible Alarm

Trigger Tapo smart bulbs to switch on when a water leak is detected by Tapo T300. Get a visual alert from your smart bulb before disaster strikes.

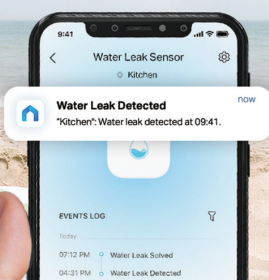

Accurate Monitoring

Set a specific viewpoint* for your Tapo camera so that when the Tapo Water Leak Sensor detects a leak, your Tapo camera will turn to monitor that exact area.

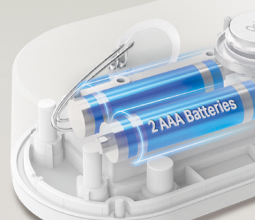

Instant App Notifications

Receive an instant app notification when a leak happens or the batteries run low.

3+ Year Battery Life*

IP67
Waterproof

Note: The Tapo Hub is required to work with third-party platforms. Actual user experience with third-party platforms will vary by time, platform, etc.

*This feature is only supported on Tapo Pan & Tilt Security Cameras.

*Battery life is based on TP-Link's laboratory results. Actual battery life may vary.

Keep the Light on When You Are Around

Precise Sensing of Human Presence, Constructing Intelligent Life Scenarios

Turn On

The light automatically turns on when you enter the toilet and stays on until you leave.[†]

Turn Off

Automatically turns off the air conditioning when the study has been empty for a while.[‡]

Mount the Way You Like

Install the sensor anywhere with the included screws, adhesives, or magnetic base.

Flexible Awareness Zone

Freely rotate the sensor to the ideal angle and adjust the detection zone. The sensor detects human bodies up to 6 meters away with a 130° field of view.

Light Detection

Easily adjust the light sensitivity to ensure the light only turns on when needed, avoiding unnecessary activation.

Tapo Human Presence Sensor		Tapo PIR Motion Sensor
Inductive principle	Radar + Infrared + Light detection	Infrared detection
Inductive sensitivity	Detects still or moving person	Only detects moving person
Whether affected by temperature	Unaffected	Sensitivity decreases as temperatures approach that of the human body
Whether light detection is supported	Built-in light sensor supports light detection	Unsupported
Power supply and battery life	2× AAA batteries 3-year battery life	1× CR2032 battery 2-year battery life

[†]Requires Tapo smart lights or smart switches.

[‡]Requires Tapo H110 IR universal remote control hub.

*Product appearance for reference only. Features are subject to change.

Your Window & Door Safeguard

Smart Contact Sensor

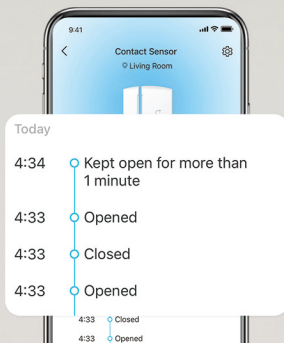

Tapo T110

Tapo Hub
Required

Window and Door Checks

Stop wondering if you closed all your windows after leaving home. Check on your doors and windows at a glance with the Tapo app.

Secure Your Home

Receive instant alerts on your phone when a door or window is opened unexpectedly. Trigger the hub to sound an alarm to warn of danger and deter intruders.

Contact Sensor Triggered
"Front Door": Opened at 23:05.

now

Or

Enhanced Protection

When doors and windows are opened unexpectedly, the Tapo camera will trigger alarms to deter intruders.

Automated Lighting Control

The smart contact sensor triggers Tapo smart bulbs, plugs, and switches to turn on and light up when you enter the room.

2-Year

Battery Life*

CR2032

Note: The Tapo Hub is required to work with third-party platforms. Actual user experience with third-party platforms will vary by time, platform, etc.

*Battery life is based on TP-Link's laboratory results. Actual battery life may vary.

Light Up Every Room You Walk In

Smart Motion Sensor

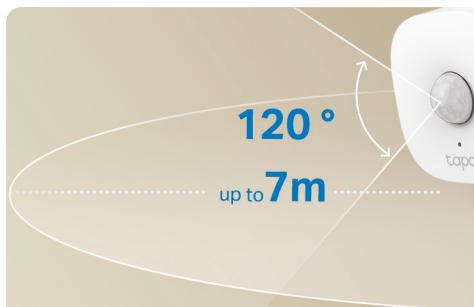

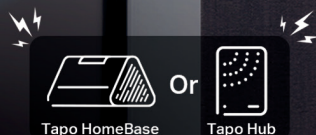

Tapo T100

Tapo Hub
Required

Guard Your Home

If motion is detected, the hub will sound an alarm. Receive notifications on your phone wherever you are.

Flexible Awareness Zone

Freely rotate the sensor to the ideal angle and adjust the detection zone. The sensor captures motion up to 7 meters away with a 120° field of view.

Track Better with Pan/Tilt Cameras

When motion activity is detected by the sensor, the Tapo pan/tilt camera will activate Patrol Mode[†] and sweep the area to see what's going on.

2-Year Battery Life^{*}

Control Your Lights with Motion

Your lights turn on automatically as you pass by, without having to flip a switch or say a word.

Note: The Tapo Hub is required to work with third-party platforms. Actual user experience with third-party platforms will vary by time, platform, etc.

[†]This feature is only supported on Tapo Pan & Tilt Security Cameras.

^{*}Battery life is based on TP-Link's laboratory results. Actual battery life may vary.

Tapo Software System

Enjoy the customization of your smart home devices through the Tapo Software system. With the Tapo app, you can fully control your Tapo devices no matter where you are. The devices can collaborate with each other via Tapo smart actions, offering advanced home automation. With Tapo Care, enjoy cloud service and receive notifications and summaries to get a quick overview of what happened.

Tapo App Smart Actions

Unleash the full potential of your smart home with Tapo Smart Actions. With Shortcuts, create personalized scenes with just a tap for the perfect ambience. Set Automations based on different triggers and let your devices adapt to your lifestyle effortlessly.

Effortless and
Convenient

Tailored and
Personalized

Time-Saving

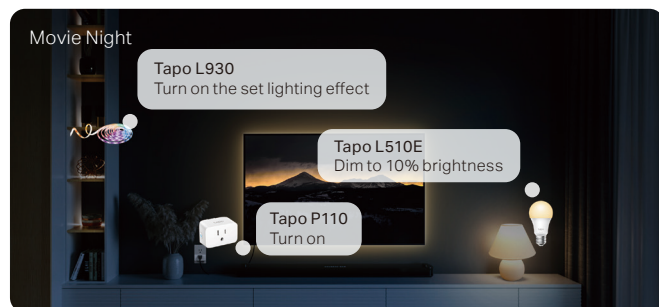

Energy- Efficient

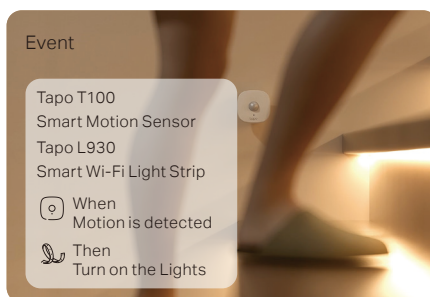

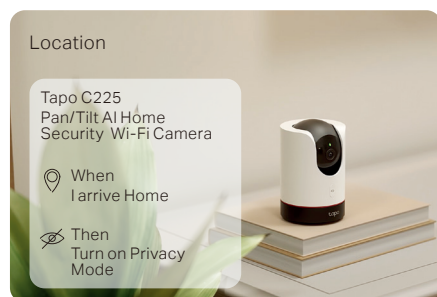

Improved Security

Your Vibe in One Tap

Seamlessly control multiple devices simultaneously with the Shortcut function and create the ideal setting for any occasion.

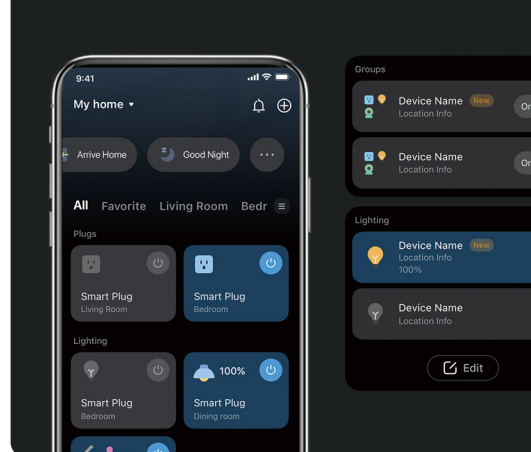

Automation Based on Different Triggers

Tapo App Dark Mode

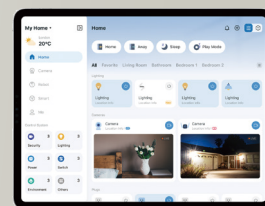

Turn on Dark Mode to protect your eyes in low-light conditions. You can choose to follow the phone system automatically. No need to turn on/off every time.

Tapo for Pad App

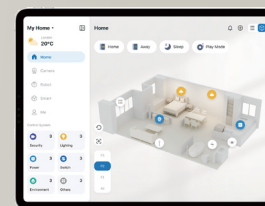

Smart Home Manager

Visualize, view, and control your smart home devices all in one app on a larger screen. View multiple live cameras for all-around home security.

Innovative 3D Dashboard

Build a 3D smart home map that simulates the layout of your real home and visualizes your smart home devices for more intuitive smart home management. Dark Mode is also available.

Note: The app features are subject to change. The app screen depicted is for visual reference only and does not necessarily represent actual product operation or app appearance.

 Snapshot Notifications

Unlimited 30-Day Cloud Video History

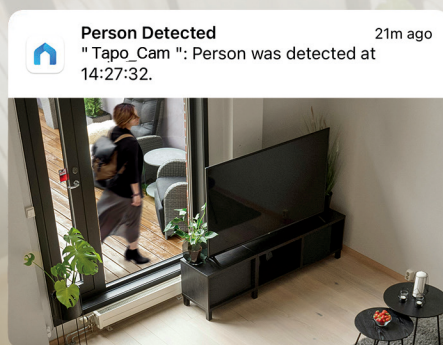

Recorded video is saved to the cloud for 30 days for you to access at your convenience, regardless of the camera's status (even if the camera is unplugged).

30
Days

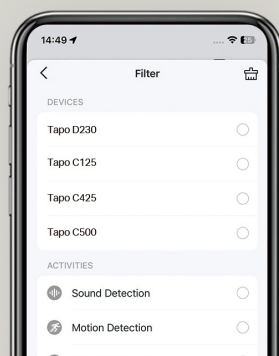

Snapshot Notifications*

By leveraging rich notifications, you can receive instant and informative alerts about events captured by Tapo cameras, making it easier to stay informed and take appropriate actions in real time.

Smart Sort

Efficiently categorize and retrieve recorded videos based on detection type, saving time and effort in searching through a large video library.

Video Summary

By summarizing the recorded events over a day, get a comprehensive overview of the day's activities at a glance.

Weekly Report

Understand your Tapo Care's performance over the week. Receive a detailed breakdown of detections, including person and motion events.

*When enabled, the camera will send notifications with snapshots when it sees a person or an object. Motion and sound detection do not trigger rich notifications. For more information about Tapo Care, please refer to the Tapo app or <https://www.tapo.com>.

Works with Tapo

TP-Link Tapo is constantly expanding its smart home ecosystem, offering innovative products and unique solutions for consumers and business partners alike. Committed to user-friendly experiences, Tapo leads in adopting industry-unifying standards and collaborates with top smart home platforms for enhanced compatibility. We're also nurturing an open development ecosystem, partnering with industry leaders to discover new applications and create mutual value. Join us to explore the limitless potential of a connected home with Tapo.

Open API

Develop the Future of Smart Homes with Tapo

Developed with the Tapo Open API, partners can integrate Tapo products into their IoT ecosystems and create value-added experiences for end-users.

Built with Tapo

The Tapo Open API enables access to manage and control an account's devices remotely over the cloud or with the provided SDK. This means end users can directly control their Tapo devices on our partners' apps and platforms, providing maximum flexibility to integrate our products with our partners' offerings.

Cloud-to-Cloud Solution

By linking a partner's cloud to the TP-Link Cloud, users can access and control Tapo devices registered to the TP-Link Cloud by calling the provided APIs.

Currently, our Cloud-to-Cloud Solution supports Tapo smart plugs, lights, sensors, and switches. More product categories will be supported soon.*

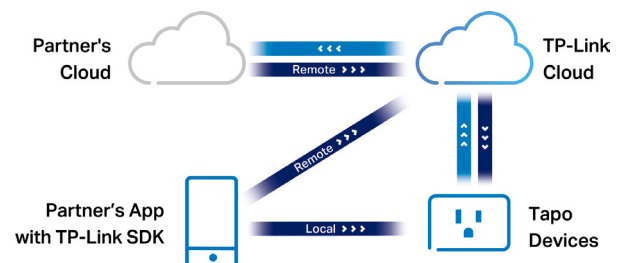

Proactive Reports

Device Control

Cloud & Application Integration Solution

Integrate Tapo's API SDK into a partners' app. Users can directly set up, manage, and control Tapo devices on the app.

The current Integration Solution already supports select models of smart plugs, sensors and security cameras, with more models being added soon.*

Proactive Reports

Device Control

Working with Our APIs, Partners Can:

Set up and control devices with ease

Perform data collection and analysis

Enrich their IoT ecosystems

Provide value-added services to end users

Provide more personalized features for end users

*More products will be supported in the future. Please visit www.tp-link.com/open-api/ to learn more about Tapo Open API and get in touch with us.

The New Standard for Unified Smart Homes

Matter is a universal connectivity language for IoT devices, apps, and platforms, dedicated to creating a future of compatibility and interoperability.

All-Round Compatibility

No longer limited to a specific smart home app. Integrate your Tapo Matter device into your preferred ecosystem, such as Amazon Alexa, Apple Home, Google Home, and more.

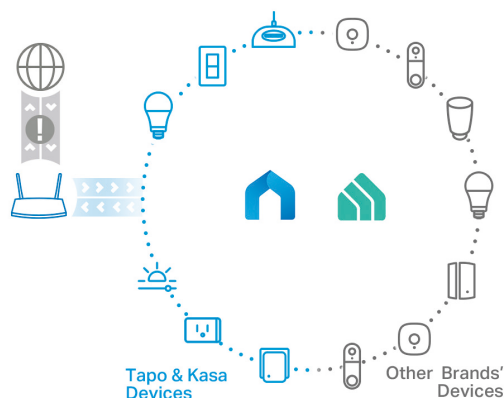

Share to Family

With the Multi-Admin of the Matter protocol, control your Tapo Matter devices via multiple platforms at the same time, or through different accounts on a single platform.

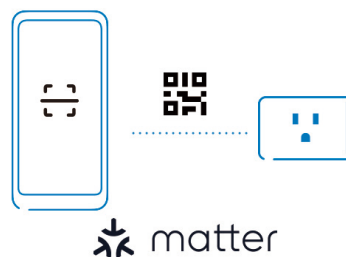

Reliable & Secure

Adopting proven encryption algorithms, Tapo Matter devices communicate with other certified devices in the local network (LAN), leading to lower latency and increased security.

Easy Setup and Control

Connect the product by scanning the included code, and control all your matter-compatible devices with only one app.

Matter is developed by the Connectivity Standards Alliance™. This brand, related logos, and marks are trademarks of the Alliance, all rights reserved.

Tapo Platform Compatibility

Experience the power of synergy and elevate your smart home to new heights with Tapo's seamless integration with leading smart home platforms. Tapo is constantly pushing boundaries and exploring compatibility possibilities with a growing list of third-party platforms.

Apple Home

Easily integrate your Tapo products with Apple Home to conveniently manage them using the Apple Home app, or with voice commands by asking Siri.

Amazon Alexa

Effortlessly manage and monitor your Tapo products with Amazon Alexa. Seamlessly control your Tapo smart home devices through the Alexa app or with simple voice commands.

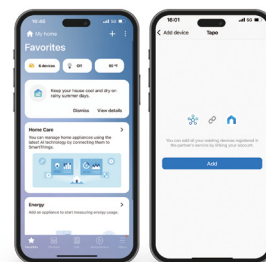

Google Home

Compatible with Google Home so that you can view and control your devices with its display or use simple voice commands with Google Assistant to control supported devices.

Samsung SmartThings

Connect Tapo smart home products to SmartThings and control them in the app, or with Samsung Bixby and other compatible voice assistants.
