

Copilot for Microsoft 365 Enablement

AI Integration for Organizational Excellence

The SHI Copilot for Microsoft 365 Enablement offering is designed to help you:

- Align Copilot with your culture and data to foster the right strategy and achieve the desired goals in your AI practice
- Gather requirements, plan for AI integration, identify outcomes, and activate Bing Chat Enterprise
- Understand your Microsoft 365 data usage, adoption health, and security/governance model
- Evaluate AI priority use cases, and rollout Copilot for Microsoft 365 to test groups
- Establish early adoption framework and understand gaps from the initial experience.
- Implement Copilot for Microsoft 365 and foster successful org-wide adoption.

To unlock AI's potential, tidying up the data landscape is non-negotiable. Copilot for Microsoft 365 Enablement is designed to facilitate the integration of Copilot for Microsoft 365, into an organization's operations. It encompasses activities such as understanding the organization's culture, setting goals, evaluating data sources, planning use cases, and ensuring ethical AI-human interaction. The result is to prepare an organization for a successful Copilot for Microsoft 365 implementation and deployment while identifying potential challenges and gaps along the way.

We will:

- Develop a plan for Copilot for Microsoft 365 integration, identify goals and outcomes, and implement Copilot (formerly Bing Chat Enterprise).
- Conduct a comprehensive analysis of data usage and health status within Microsoft 365, and prepare organization data and people for the use of AI
- Evaluate Copilot for Microsoft 365 priority personas, rollout Copilot for Microsoft 365 to test groups, establish early adoption framework and education, and understand gaps from initial experience
- Implement production persona scenarios for AI, deploy Copilot for Microsoft 365, and provide a clear path forward for adoption.

Benefits

- Reassurance of best practices and securing data
- Persona-based training to provide reinforcement of user adoption and enablement
- Custom curation of unique AI use cases tailored to your organizations challenges and initiatives
- Rapid realization of return on investment with Copilot deployment and integration.

Deliverables

- AI Readiness Report
- Training and Adoption Resources
