PROJECTION ALARM CLOCK

with 2 AMP USB Charging and FM Radio

SET UP GUIDE

MODEL: 817-2410 | 817-83957

Power Up

1. Insert the 5.0 volt power adapter into an outlet, then into your clock.
Optional: Insert a CR2032 battery (not included) for backup.
2. Enter the Settings Menu to set Time.

Settings Menu

1. Hold the **SET MEM** button to enter the Settings Menu.
2. Press the **PROJECT** or **LIGHT ON-OFF** button to adjust the values. Hold to adjust quickly.
3. Press the **SET MEM** button to confirm and move to the next item.

Settings Menu

Settings Menu Order:

- Hour
- Minutes
- Snooze Duration (NO5) 5-60 minutes

Note: When setting the Hour, the “P” will show to indicate PM hours.

FM Radio

1. Extend the antenna for best reception.
2. Press the  button to listen to the radio. ON will show briefly, followed by the frequency in MHz.
3. Press the  or  button to select station. Hold to search for next clear station.
4. Press  to view Volume Setting. Use  or  button to adjust Volume (1-16).
5. Press  to turn radio off.

FM Radio

Auto Scan and Store Preset Stations:

1. Press  to listen to the radio
2. Hold  to automatically scan and set up to 20 stations.

Manually Store Preset Stations:

1. Press the  button to listen to the radio. ON will show briefly.
2. Press the  or  button to select station.
3. Hold  until P01 flashes to store as Preset 1.
4. Repeat steps 2 and 3 to set up to 20 Preset Stations.

Note: You can change preset stations with the above instructions.

Listen to Preset Stations:

1. Press the  button to listen to the radio.
2. Press  then  or  to select Preset Stations.

Radio Sleep Timer:

1. When the radio is on, hold  , the sleep time “05” (5 minutes) will show.
2. Press  repeatedly to select minutes from 05, 10, 15, 30, 45, 60, 75, 90 or OFF.
3. The clock radio reverts to the time display automatically in a few seconds. Hold  to see the sleep time remaining.
4. Press  to deactivate the radio and the sleep function before the sleep time has elapsed.

Time Alarm

This Projection Clock has a dual time alarm function. Use the following instructions to set your alarm times, choose your wake up sound (buzzer or radio), and alarm volume if you choose the radio option.

Set Alarms:

1. Hold the  button to enter the Alarm Settings.
2. Press the  or  button to adjust the values. Hold to adjust quickly.
3. Press and release the  button to confirm and move to the next item.
4. Press the  button anytime to save and exit.

- Alarm 2 Minutes
- Alarm 2 Wake sound: **bu** (buzzer) or **rd** (Radio)
 - When **rd** (Radio) is selected: Alarm 2 HI/LO (volume)

Time Alarm

Activate/Deactivate Alarm 1 & 2:

1. Press the  button to activate or deactivate Alarm 1 and/or Alarm 2.
2. The Amber LED Light next to the  or  indicates that alarm is active.

Turn Off Sounding Alarm:

When alarm sounds, press the  button once to stop the alarm for 24 hours.

Snooze:

When an alarm is sounding, press  once, the alarm will be silenced and come on again after the custom snooze duration selected.

Note: If your second alarm activates while the first alarm is sounding, or it is in the snooze mode, the second alarm overrides the first alarm (the first alarm is reset to come on the next day).

Projection

Projection ON/OFF:

The Projection will be On when Projection Alarm Clock is powered on.

1. Press the  button to turn Projection Off, Dim or On again.

Projection

Projection Image Rotation:

1. Hold the  button to turn Projection 180 degrees.
2. Turn the **Projection Wheel** on the back of the Projection Arm to adjust the projected image 90 degrees.

Note: The **Projection Wheel** will rotate to allow you to correctly project the time onto your wall or ceiling.

USB Charging

- Make sure the original adaptor (5V-2A) enclosed with your clock radio is being used to power your clock radio.
- Connect your external device's USB charging cable (not included) to the **USB Charging Port**.
- Charging times will vary.
- USB Power Output: 2A maximum current.
- Charge 2A devices or devices that are self-regulating.

Note: This clock was designed to charge tablets or other devices requiring more than a 2A current.

Adjustable Backlight

Select High or Low:

Press the  button to select High or Low backlight. Backlight will dim but does not turn off.

Adjust Low Brightness:

Rotate the Dimmer Wheel  on the side of your clock to adjust the brightness of the Low setting. The High setting is not adjustable.

Mood Light

The Mood Light glows below the clock, offering a gentle amber glow. Press the  button to turn this light on or off.

Canada Statment

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- 1) L'appareil ne doit pas produire de brouillage;
- 2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

FCC Statment

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Caution!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
