WIMIUS W7

Brief presentation

Beta 2.5

The Wimius model W7 is an LCD LED projector with HDTV 1920 x 1080 Resolution and a contrast of 15000:1. Manufacturer Wimius indicates the lifespan of 160000 hours, which would be worth a daily look of 4 hours over 109.6 years. Since Wimius indicates the brightness of the projector in Lumen, we have a ca. Ansi-Lumen value calculated in this case. 249 cm of image width will be able to illuminate the projector easily. If room light is present then the image width should not exceed 166 cm. Since the projector Airplay, Miracast Screen Mirroring recognizes signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) with a high resolution and surround sound. Also video signals 1080P and 4K (compressed) are no problem for the projector.
