The new low-profile Signal S2 universal TV sound bar delivers an incredible, room-filling home theater experience — far beyond anything you get from your TV's small built-in speakers. The built-in HDMI ARC and Optical inputs ensure comparability with the latest 4K TVs. Includes HDMI cable for quick and easy setup. Features Polk's patented Voice Adjust technology for clear dialogue and Dolby Digital decoding for immersive, performance-tuned surround sound. Includes a wireless subwoofer for deep bass impact. Plus, stream your favorite music through *Bluetooth*®.

Features

Performance-Tuned Surround Sound

Dolby Digital decoding creates incredible room-filling surround sound that easily beats anything you hear from your TV's small speakers.

Universal Compatibility

Works with 4K and HD TVs — HDMI and optical cables included. Watch your favorite shows with exceptional contrast and clarity.

Low-Profile Design

At just 5.5cm tall, it fits most spaces — easily wall-mount it or place in front of your TV. It won't block your TV's bottom edge or IR remote sensor.

Polk Voice Adjust Technology

Customize the voice levels to reproduce clear, crisp dialogue and never miss a single word of your favorite movie, TV show or sporting event.

Wireless Music Streaming

Built-in Bluetooth® technology lets you stream music directly from your smartphone, tablet or other compatible device.

Compact Wireless Subwoofer

Paired with the sound bar, the included wireless subwoofer reproduces deep bass impact you can feel, creating a room-filling and immersive home theater and music listening experience.

Built-in HDMI Audio Return Channel (ARC)

Control of the Signal S2 volume via your TV remote control (requires the sound bar is connected to TV HDMI ARC port and CEC enabled on the TV).
