# Bone Conduction
Bluetooth Headphones
User Manual (X6)

Wearing

Spread the headphones apart with both hands and wear them to the appropriate position.

Note:
When using the headphones, it's important to wear them correctly. Incorrect positioning may cause discomfort. The sound-producing parts of the headphones should be in front of both ears without the need to insert them into the ear canal.

Features

Basic Operations

Power on/off

Press and hold the power button for 3 seconds. When the indicator light flashes red and blue alternately, the headset has been turned on. When the red light turns on and off, the headphones have been turned off.

Pairing Method

1. Keep the headphones within a 1-meter range for the initial pairing.
2. When the red and blue lights flash alternately, it indicates that the headphones have entered automatic Bluetooth pairing mode.
3. Open your smart device and locate "X6" in the Bluetooth list.
4. Click to connect. The blue light will flash slowly upon successful connection.

How to switch between Bluetooth mode and MP3 mode?

The headset is in Bluetooth mode by default. Press the power button twice consecutively to switch to MP3 mode. The same operation applies to switch back to Bluetooth mode.

When to charge the headphones?

The headphone's battery capacity will be displayed on the phone. The headphones will prompt "Low power" when the battery is running low.
