Software Update

Samsung may offer updates for the Soundbar's system firmware in the future.

If an update is offered, you can update the firmware by connecting a USB device with the firmware update store on it to the USB port on your soundbar. For more information about how to download update files, go to the Samsung Electrics website at (www samsung.com - support).

Then, enter or select the model number of your Soundbar, select the Software & Apps option, and then Downloads. Note that the option names can vary.
