2/4 Channel Install Power Amplifiers

PowerZone™ • 252 • 504 • 1004

The PowerZone™ series of install power amplifiers are designed to provide affordable, versatile, and reliable high-performance audio power.

- ✓ **All channels deliver high & low impedance loads** – meaning one amplifier can replace two, and saves you costs and installation time.
- ✓ **Total power is automatically shared across the output channels** – use one PowerZone™ amp to utilize the power where you need it (*model-specific feature).
- ✓ **Ultra-compact form factor** – means the ½ rack PowerZone™ are so small and neat they can be installed in spaces where other brands cannot.
- ✓ **Consolidate products and brands** – save the hassle of sourcing multiple amplifiers when PowerZone™ can be used on many different install sites.
- ✓ **Easy to configure DIP Switches** – allow you to set up on-site as you need and has front panel control lock to stop unwanted changes to your setup.
- ✓ **GPIO interface** – enables adding a standard remote control (potentiometer) to the system.
- ✓ **Class leading energy efficiency** – means a day-to-day energy saving and long-term low cost of ownership.
- ✓ **Pascal's UMAC™ Class-D amplifier technology** – with market proven, ultra-reliable U-PRO amp modules
- ✓ **PowerZone™ quality and reliability are backed up with a 5-year warranty.**
