

V5 BK2 Installation instructions

1. Install the brackets to first Battery. Battery top cover where the lables are pasted should go to wall, and battery bottom faces outside. Refer to the multi-angled pictures to determine and align the 4 brackets to their right positions.

2. Install the first battery to wall

3. Install connection boards to first battery

4. Install the 2nd battery

Packing List

No.	Code	Item	QTY	Specification	Picture	Remarks
