REPLACING AN ARMREST

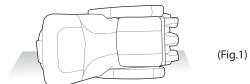

To ensure that Human Touch products are repaired in a manner that is fully consistent with the practices used during the manufacturing process, Human Touch requires that all product repairs are performed using only factory-new parts and in accordance with these product repair instructions.

SERVICE LEVEL: 2

Tools Required: Large flat-head or Phillips-head screwdriver.

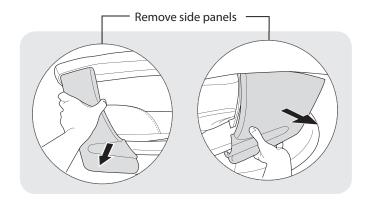

SAVE ALL REMOVED PARTS FOR USE DURING REASSEMBLY

NOTE: TO REPLACE A WOOD ARMREST PANEL, SEE THE INSTRUCTIONS ON PAGE 3.

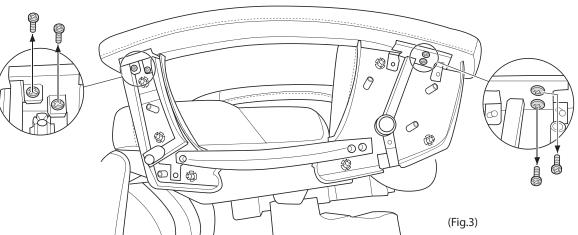

REMOVING AN UPHOLSTERED ARMREST

- 1. Use the remote control to fully retract the foot and calf massager.
- 2. Power off the chair and unplug it.
- 3. Using two people, turn the chair gently on its side, with the armrest you wish to replace on top (Fig.1).
- 4. Using your hands, pry off both side panels (Fig.2).
- 5. Using a large flat-head or Phillips-head screwdriver, remove the two armrest screws from the front of the armrest and the two armrest screws from the rear of the armrest (Fig.3).
- 6. Remove the armrest from the chair.

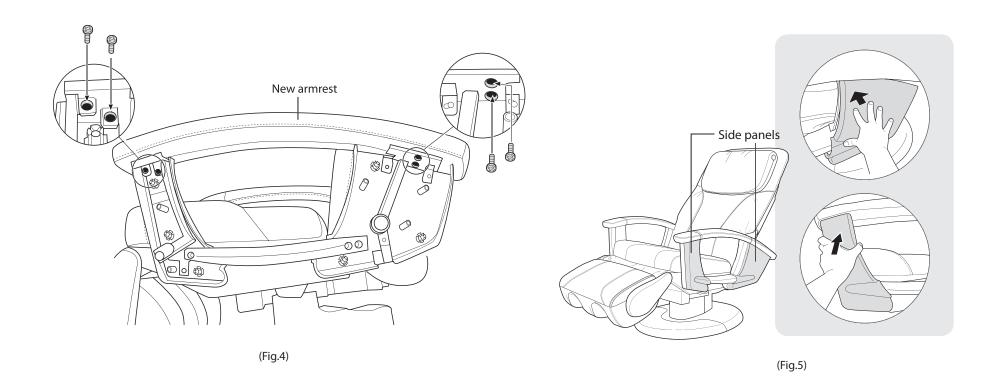

(Fig.2)

INSTALLING A NEW UPHOLSTE\RED ARMREST

- 1. Place the new armrest into position, aligning the two brackets on the front of the armrest with the corresponding brackets on the chair side panel.
- 2. Using a large flat-head or Phillips-head screwdriver, replace the two front armrest screws, then replace the two rear screws (Fig.4).
- 3. Gently return the chair to an upright position.
- 4. Replace the side panels, by aligning the posts on the inside of the panel with the corresponding guides on the chair, then pushing the cover firmly into place (Fig.5).

REPLACING A WOOD ARMREST PANEL

- 1. Remove both the front and rear side panels (Fig. 2).
- 2. Using a Phillips-head screwdriver, remove the three screws that secure the wood armrest panel to the chair (Fig.3).
- 3. Place the new wood armrest panel into position, then secure it using the three screws.
- 4. Replace both the front and rear side panels (Fig. 5).
