

FITTING INSTRUCTIONS

WHAT YOU WILL NEED...

HEADBOARD

1

Lay down the headboard panels on the floor with the tenons as shown above, and push the rails into the legs.

If your bed doesn't have a headboard, repeat steps 3 & 4 instead of 1 & 2.

2

Ensure rails and legs are tightly pushed together and insert the screw cups and 60mm screws into each hole.

FOOTBOARD

3

Lay down the footboard pieces on the floor with the tenons as shown above, and push the rails into the legs.

4

Ensure the rails and legs are tightly pushed together and insert the screw cups and 60mm screws into each hole.

SIDE PANELS

5

Push the side panels into the legs of the headboard and footboard, ensuring the supporting bars for the bed slats are on the inside. It is often easier to get help with this.

6

Ensure rails and legs are tightly pushed together and insert the screw cups and 60mm screws into each hole.

ADDITIONAL LEGS - LARGER BEDS ONLY

7

If your bed has a central rail and additional supporting legs, screw the supporting legs into position on the central rail with 60mm screws.

CENTRAL RAIL - LARGER BEDS ONLY

8

Place the central rail in the middle of the bed onto the extra support and secure down with 35mm screws.

SLATS

9

Place the slats on the frame ensuring they are evenly spaced.

10

Once you are happy with the position of the slats, fix securely into position with the 35mm screws. No screw cups necessary.

11

ADD YOUR MATTRESS AND
BEDDING, THEN ENJOY!

To be used as a guide only. Some beds may have more rails or don't have headboards. If you need any help assembling your bed, please don't hesitate to get in touch with us and we will be happy to help.
