Cisco AI Assistant Components

The Cisco AI Assistant is engineered with user-friendly components.

- **Text Input Box** - At the bottom of the window, you have a text input box that allows you to type and engage with the AI Assistant.
- **New Thread** - Click the **edit** icon to start a new conversation with the AI Assistant
- **Chat History** - Expand the menu tray on the left side of the screen to see your chat history.
- **Feedback** - The AI Assistant has an option to provide feedback for its responses. Click thumbs up to show appreciation or thumbs down to let the assistant know that it can do better.
- **Expand View** - Click on the expand icon on the top right to open the AI Assistant in full screen view.
- **Notifications/Alerts** - The AI Assistant provides alerts and notifications for critical actions, updates, and changes within your security environment.
