

In The Box

5 in 1 Two-way Charging Hub

Instruction Manual

Data Line

Charging time (Take PD 65W input as an example)

Two batteries : About an hour

Warning

Do not store or carry flammable liquids, gases, or explosive materials in the same compartment of your device/its parts/or accessories. Turn off your device, and do not remove or install battery chargers, AC adapters, or any other accessories for your device when you are in an area with potentially explosive atmospheres.

To reduce the risk of fire, shock or damage to your device, do not expose your device to rain, snow or other types of moisture. Do not use your device near water or in a damp or excessively humid location (e.g., near a shower, bathtub, sink, or swimming pool, or in a damp basement).

5 in 1 Two-way Charging Hub

Suitable for MINI 3 PRO

CYNOVA

CYNOVA 5 in 1 Two-way Charging Hub

Suitable for DJI MINI 3 PRO

Product parameters

Product name : CYNOVA 5 in 1 Two-way Charging Hub
Product number : C-DM-FM-005
Product material : ABS+PC

Technical parameters

TYPE-C Input :5V-15V
USB Output :5V \approx 2A
Charger Recommendation : PD 45W or above USB wall chargers (two batteries can be charged at the same time),
PD 65W or above USB wall chargers, full power charge two batteries at the same time.

Compatible battery model :

Mini 3 Pro intelligent battery

Compatible model :

DJI MINI 3 PRO

Wall charger power	Battery charging rules
Less than PD 45W	Charging batteries in sequence according to their remaining power level, from highest to lowest one by one.
PD 45W or above	Full power charging the 1st battery which with the highest remaining power. The rest power will charge another battery which is on the same side/or on diagonal position, according to their remaining power level, from highest to lowest one by one.
PD 65W or above	Full power simultaneous charging 2 batteries.

Why not simultaneous charging?

When there are two batteries left to be charged, if they are not on the same side or not on diagonal position, can not be recharged at the same time. Just move one battery to another compartment please.

Charging status indicator

Charging : The red lights flash alternately

Full battery : The green lights are always on
