

ACEFAST

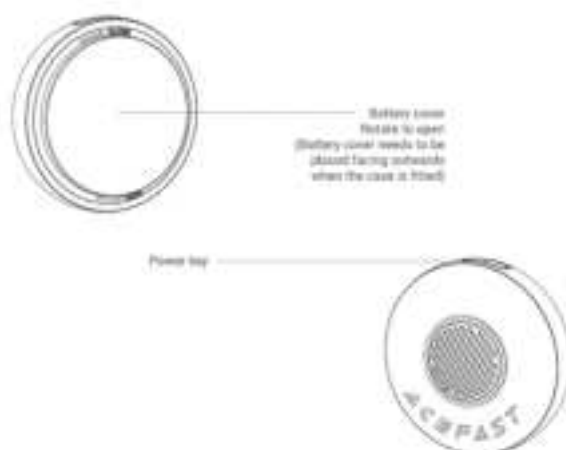

S1

快速入门指南

Quick Start Guide

Button type positioning device

Thank you for purchasing this product.

Please read this user manual carefully and keep it for future reference. If you need any assistance, please contact our support team with your product model number and Amazon order number.

Legal Requirements

FCC Requirements

One of the world's most widely used mobile devices, the ACBFAST is designed to be used specifically with the technology identified in this manual and has been designed to comply with the product requirements for mobile devices that are subject to the same regulatory requirements as other mobile devices.

ACBFAST is designed to be used in the United States and is subject to the same regulatory requirements as other mobile devices. It is not intended for use in any other country.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

Before using the product

1. Read the product user manual thoroughly and carefully.
2. Turn on the power of the device by pressing the power button.
3. Remove the protective sheet on the product back to avoid any damage to the device.
4. Charge the device fully before using it.
5. Do not use the device in the following situations:
 - In the presence of flammable or explosive materials.
 - In the presence of high voltage or high current.
 - In the presence of strong magnetic fields.
 - In the presence of strong electromagnetic waves.

Battery

The product contains a battery in the form of a cell. During the use of the product, the battery may generate heat and cause damage to the product or the user.

Other tips

1. To prevent fire or explosion, do not use the product in the presence of flammable or explosive materials.
2. To prevent fire or explosion, do not use the product in the presence of high voltage or high current.
