Charging

Charging Your Speaker

- Use a certified C-C cable and charger to prevent any damage.

	Flashing Red	Low Battery
	Flashing White	Being Charged
	Steady White	Fully Charged

Powering On/Off

	Press Once	Power On
	Press and Hold for 2 Seconds	Power Off

- This speaker will power off automatically after 20 minutes of no audio input.
- You can also set an auto-power-off time in the soundcore app.

Using Your Speaker

Bluetooth Mode

Press the Bluetooth button to enter Bluetooth pairing mode, then select **"soundcore Rave 3S"** from your device's Bluetooth list to connect.

	Press	Enter Bluetooth Pairing Mode
	Flashing Blue	Bluetooth Pairing
	Steady Blue	Bluetooth Connected

- To re-enter Bluetooth pairing mode, press the Bluetooth button once.
- This speaker can only play music on one mobile device at a time. To play from another connected device, pause the device that's currently active first.
- Each time you power on your speaker, it will automatically connect to your last connected device if available within the Bluetooth range. If not, press the Bluetooth button to enter Bluetooth pairing mode.

TWS (True Wireless Stereo) Mode

Two identical soundcore speakers can pair with each other for stereo sound. Both speakers can play the same audio (one as the left channel and the other as the right channel).

With one speaker connected to a smartphone or tablet, press the AuraCast button simultaneously on both speakers to enter TWS pairing mode powered by AuraCast technology.

Upon successful pairing, you will hear a sound prompt. Then double press the AuraCast button on either speaker to assign the left and right audio channels.

channels.

	Press Once	Enter / Exit TWS Pairing Mode
	Steady White	TWS Pairing
	Steady White (Speaker 1)	TWS Connected
	Steady White (Speaker 2)	

AuraCast

With one speaker connected to a smartphone, press the AuraCast button on up to 10 soundcore speakers with AuraCast function to synchronize audio and light.

	Press Once	Enter / Exit AuraCast Pairing Mode
	Steady White	AuraCast Pairing
	Steady White	AuraCast Connected

- When you enable or disable the AuraCast feature, you will hear a notification sound.

Using the Wireless Microphones

- Unscrew the battery cover.
- Install two AA batteries.

	Press Once	Power On
	Press and Hold for 2 Seconds	Power Off
	Press	Mic Volume Up / Down
	Press	Adjust Vocal Removal Level

- Once you power on the wireless microphones, they will automatically connect to the speaker.
- The AI VOCAL REMOVAL button on the speaker can remove the original vocal from a song with just one press. While the AI Vocal Removal button on the wireless microphone allows for adjustable vocal retention, ranging from 4% to 100%.
- Once the vocal removal level is set on the microphone, the speaker will remember this setting even after restarting. This ensures that when you activate the vocal removal feature on the speaker, the vocal removal effect will match the level set on the microphone.

Manual Pairing of Wireless Microphones

If the wireless microphones don't connect automatically after powering on, follow the steps below to manually pair them with the speaker.

First, press and hold the Next Track and AI Vocal Removal buttons for 8 seconds on the speaker to reset pairing. Then press and hold the Volume Up and AI Vocal Removal buttons on both microphones for 8 seconds to complete pairing.

Guitar / Wired Microphone Connection

Connect a microphone or guitar to the speaker through 6.5mm audio cables (not supplied).

- After connecting a microphone or guitar to the speaker, make sure to set the toggle switch to the correct sound input.
